ACKNOWLEDGEMENT

It was an endeavor completed with the constant support, inspiration, and encouragement of my well wishers whose enthusiasm alone enabled me to write the fly leaf of my doctoral dissertation. At this juncture I remember with a deep sense of gratitude all who stood by my side in this venture.

At first I was simply an admirer of the spectacular beauty of surfactant moieties but it was Dr. R.K. Dutta, my supervisor who introduced me to the core of the fascinating fields of surfactant chemistry. His towering presence throughout the Ph.D. programme was my constant source of inspiration. I must admit that without his skillful guidance, intellectual support and encouragement against massive odds this research work would have never been completed.

I am grateful to the authorities of Tezpur University, Prof. S.K. Dolui, Dean, School of Science and Technology and Prof. N.S. Islam, Head, Department of Chemical Sciences, for not only allowing me to use the necessary facilities to carry out my research work but also for their cooperation and support during this period.

I am thankful to the faculty members of the Department of Chemical Sciences, Tezpur University, Dr. T.K. Maji, Dr. N. Karak, Dr. R. Borah, Dr. R.C. Deka, Dr. A.K. Phukan and Dr. A.J. Thakur for their suggestions and encouragements in my research work.
I gratefully acknowledge Prof. Munindra Bora, Department of
Mathematical Sciences, Tezpur University for developing a Fortran Program
for the computational works involved in our studies.

I am especially obliged to Mr. D. Bharali, Mr. P.S. Baruah, Mr. B.K.
Saikia and Mr. H. Gogoi for their help during this period.

I would like to offer my sincere thanks to my colleagues in the
laboratory Mr. Biren Gohain, Surashree, Babulal and Parasha for their help
and active co-operation throughout these years. My sincere thanks goes to my
friends, Raju da, Tapashi ba, Nandini, Rashmi, Diganta, Jyotishmoi, Illias,
Suvangshu, Rabiul and Sibdas for their help and support during the course of
my works.

Looking back to the days I spent in the laboratory, I fondly remember
every cherished moment I spent with my friends both during work and leisure.

I am grateful to UGC for granting a MRP (sanction number F.5-79/99-2000, MRP/NER) and to RRL, Jorhat, for providing me with library
facilities.

I gratefully acknowledge Dr. A.K. Sharma, Principal, Darrang
College, for allowing me to undertake this work and for his sincere support
and encouragement throughout the course of my work.

I would like to extend my sincere thanks to Mr. P.K. Borah, Head,
Department of Chemistry, Darrang College, and to my colleagues in the
department, Dr. D.K. Sharma, Dr. B.C. Paul, Mr. S. Chetry, Mr P. Mandal,
Mr. P. Hazarika and Mr. B. Kakoty for their warm support and
encouragement.
I am grateful to my senior teachers and colleagues of Darrang College whose encouragement made a lot of difference in completing this work.

It was my parents whose ambitious wishes brought me to the field of research and without their blessings and encouragement this venture would have never reached the present stage.

Finally, I thank Rashmi, my wife who was a constant source of inspiration for me in completing this work. Her support and sacrifice during the final stage of this work will always accompany me in the form of sweet memories.
