

LIST OF FIGURES

Figure 1. 1 Soft Computing Techniques	4
Figure 1. 2 Fuzzy System.....	5
Figure 1. 3 Block Diagram of Fuzzy Control System	6
Figure 1. 4 Flow chart of Fuzzy Logic Controller	8
Figure 1. 5 Classical Sets to characterize the room temperature	11
Figure 1. 6 Fuzzy Set to characterize the room temperature	11
Figure 1. 7 Classical representation of employees.....	12
Figure 1. 8 Continuous representation of employees.....	12
Figure 1. 9 Membership function of the temperature	14
Figure 1. 10 Fuzzy Inference Process having two inputs, three rules and one output	16
Figure 1. 11 Basic design of Neural Networks	20
Figure 1. 12 Neural Fuzzy System.....	24
Figure 1. 13 Fuzzy Neural Network	24
Figure 3. 1 Most employability skills look in potential employees.....	46
Figure 3.2 Three Employability Skills Use as Input.....	53
Figure 3.3 Architecture of employability valuation.....	53
Figure 3. 4 Architecture of fuzzified expert system	55
Figure 3.5 Input Variable “Education”	57
Figure 3. 6 Input Variable “Personal Development”	57
Figure 3. 7 Input Variable “Understanding Power”.....	57
Figure 3. 8 Output Variable “Employability”	58
Figure 3. 9 Rules of employability	58
Figure 3. 10 FIS Editor of employability skills	61
Figure 3. 11 Input Variable “Education”	61
Figure 3. 12 Input Variable “Personal Development”	62
Figure 3. 13 Input Variable “Understanding Power”.....	62
Figure 3. 14 Output Variable “Employability”	62
Figure 3. 15 ANFIS Structure for Employability	63

Figure 3. 16 Rules for Employability Skills	63
Figure 4. 1 Membership Function for Priority.....	67
Figure 4. 2 Membership Function for Execution Time	68
Figure 4. 3 Membership Function for New Priority	68
Figure 4. 4 Computation of New Priority	68
Figure 4. 5 Result of Case study-1(Without Arrival time)	72
Figure 4. 6 Result of Case study-1(Without Arrival time)	74
Figure 4. 7 Result of Case study-2.....	76
Figure 4. 8 membership functions for input variables Execution Time1	82
Figure 4. 9 membership functions for input variables Execution Time2	82
Figure 4. 10 membership functions for output variable New Execution Time3	83
Figure 4. 11 Schedule for Jobs J_2, J_4, J_5, J_1, J_3 , as per Gupta's Heuristic	86
Figure 4. 12 Schedule for Jobs of group Y: J_3, J_1 according to proposed algorithm.....	87
Figure 4. 13 Schedule for Jobs of group Y: J_1, J_3 according to proposed algorithm.....	87
Figure 4. 14 Schedule for Jobs of group X: J_2, J_1, J_3 according to proposed algorithm.....	88
Figure 4. 15 Schedule for Jobs of group X: J_1, J_2, J_3 according to proposed algorithm.....	88
Figure 4. 16 Schedule for Jobs: J_1, J_3, J_2 according to proposed algorithm	88
Figure 4. 17 Schedule for Jobs: J_4, J_2, J_1, J_3 according to proposed algorithm.	89
Figure 4. 18 Schedule for Jobs: J_2, J_4, J_1, J_3 according to proposed algorithm	89
Figure 4. 19 Schedule for Jobs: J_2, J_1, J_4, J_3 according to proposed algorithm	89
Figure 4. 20 Schedule for Jobs: J_2, J_1, J_3, J_4 according to proposed algorithm	90
Figure 4. 21 Schedule for Jobs: J_4, J_1, J_3, J_2 according to proposed algorithm	90
Figure 4. 22 Schedule for Jobs: J_1, J_4, J_3, J_2 according to proposed algorithm	90
Figure 4. 23 Schedule for Jobs: J_1, J_3, J_4, J_2 according to proposed algorithm	91
Figure 4. 24 Schedule for Jobs: J_1, J_3, J_2, J_4 according to proposed algorithm	91

Figure 4. 25 Schedule for Jobs: J ₅ , J ₂ , J ₁ , J ₃ , J ₄ according to proposed algo....	92
Figure 4. 26 Schedule for Jobs: J ₂ , J ₅ , J ₁ , J ₃ , J ₄ according to proposed algo....	92
Figure 4. 27 Schedule for Jobs: J ₂ , J ₁ , J ₅ , J ₃ , J ₄ according to proposed algorithm	92
Figure 4. 28 Schedule for Jobs: J ₂ , J ₁ , J ₃ , J ₅ , J ₄ , according to proposed algorithm	93
Figure 4. 29 Schedule for Jobs: J ₂ , J ₁ , J ₃ , J ₄ , J ₅ according to proposed algorithm	93
Figure 4. 30 Schedule for Jobs: J ₅ , J ₄ , J ₁ , J ₃ , J ₂ according to proposed algorithm.....	93
Figure 4. 31 Schedule for Jobs: J ₄ , J ₅ , J ₁ , J ₃ , J ₂ according to proposed algorithm.....	94
Figure 4. 32 Schedule for Jobs: J ₄ , J ₁ , J ₅ , J ₃ , J ₂ according to proposed algorithm.....	94
Figure 4. 33 Schedule for Jobs: J ₄ , J ₁ , J ₃ , J ₂ , J ₅ according to proposed algorithm.....	94
Figure 4. 34 Schedule for Jobs: J ₄ , J ₁ , J ₃ , J ₅ , J ₂ according to proposed algorithm.....	95
Figure 5. 1 Block diagram of controller.....	97
Figure 5. 2 Temperature Membership Functions.....	99
Figure 5. 3 Humidity Membership Functions.....	99
Figure 5. 4 Input1 Membership Functions.....	100
Figure 5. 5 Input2 Membership Functions.....	100
Figure 5. 6 Compressor speed membership function.....	102
Figure 5. 7 Fan speed membership function.....	102
Figure 5. 8 Operation mode membership function.....	103
Figure 5. 9 Fan direction membership function.....	103
Figure 5. 10 Compressor speed with temperature.....	103
Figure 5. 11 Compressor speed with humidity.....	104
Figure 5. 12 Output with input1 (Temp).....	104

Figure 5. 13 Output with input 2 (Humidity).....	105
Figure 5. 14 Membership function for input variable “Temperature”.....	108
Figure 5. 15 Membership function for input Variable “Humidity”	108
Figure 5. 16 Membership function for output Variable “Fan Speed”.....	109
Figure 5. 17 Membership function for output Variable “Pump Speed”	109
Figure 5. 18 Membership function for output Variable “Exhaust Fan Speed”	109
Figure 5. 19 Architecture of duct system.....	112
Figure 5. 20 Calculation of Crisp value using Mat-lab.....	113
