ACKNOWLEDGEMENTS

I would like to express my deep and sincere gratitude to my supervisor Prof. Manab Deka, Professor and Head in the Department of Biological Science, Gauhati University, Guwahati, Assam for his sustained guidance, inspiring thoughts and constant encouragement during the present course of research work. I heartily thank him again for being an ideal model for his students.

I am indebted to Prof. Rupjyoti Bharali, Head of the Department of Biotechnology, Gauhati University, Guwahati for granting me the permission to carry out the research work in the department and providing me all the possible facilities, with constant encouragement during the tenure of these investigations.

I am sincerely grateful to other faculty members of the Department of Biotechnology, Gauhati University, Guwahati, Assam for their support and constructive suggestions during the planning and development of this research work.

My profound and sincere thanks are due to Miss. Rajkumari Debalakshi, and Miss. Bornali Baishy, Research Scholars of the Department of Biotechnology, Gauhati University, Guwahati for their manifold helps and support throughout the research work. Their willingness to give their time so generously has been very much appreciated.

I am also thankful to Miss. Namrata, Mrs. Minali Baishy, Mr. Rajib Chandra Dev Goswami and Mr. Nitumani Kalita, Research Scholar of the Department of Biotechnology, Gauhati University, Assam for their support and help during the experimental work.

I thank to Mr. Pinku, lab attendant in the Department of Biological Science, Gauhati University, Guwahati, Assam for his help in animal handling and laboratory technical works.

I am thankful to Dr. R.K. Bikramaditya Singh, Mr. S. Khogenkumar Singh, Mr. Mayank Joshi and Mr. Sanjoy Singh Negi, Wadia Institute of Himalayan Geology, Dehradun for extending their valuable help during the compilation of present research work.
I also wish to thank and gratitude to all those who made it possible to complete the research work by their assistance and encouragement.

I would like to dedicate this work to my family who gave constant encouragement and inspired me to achieve my dream. I specially record my thankfulness and a mountainous amount of appreciation to my husband Dr. Athokpam Krishnakanta Singh, Wadia Institute of Himalayan Geology, Dehradun for his constant support and patience during the course of my research work. My greatest debt is to my little sweetheart Krian Athokpam for being a good son, an understanding child during my research work and always. Last but not the least, I wish to acknowledge the encouragement, support and affection bestowed by all family members especially to my wonderful father and mother, Huidrom Dhananjoy Singh and Smt. Huidrom Bheigyabati Devi who always encouraged and supported me during the tough hours of my life.

(Sangeeta Huidrom)
