**CHAPTER-1:** Introduction  

**CHAPTER-2:** Experimental – Materials, Instrumentation and Methodology  

**CHAPTER-3:** Determination of *capecitabine*-an anticancer drug in dried blood spot by LC-ESI-MS/MS  

**CHAPTER-4:** Rapid quantification of *etoposide* in spiked human plasma by ultra performance liquid chromatography-tandem mass spectrometry  

**CHAPTER-5:** Sensitive and rapid determination of *lapatinib*, an anticancer drug in spiked human plasma by LC-MS/MS  

**CHAPTER-6:** High throughput estimation of *methotrexate* in K$_3$EDTA human plasma by using LC-ESI-MS/MS and application to pharmacokinetic study  

**CHAPTER-7:** Bioanalytical method development and validation for the estimation of *6-mercaptopurine* in human plasma by LC-MS/MS and its application to a pharmacokinetic study
