ACKNOWLEDGEMENTS

This journey would not have been possible without the dedicated and parental support by my supervisor, Dr. M. B. Dholakia. I would like to thank Dr. Dholakia who has been supported me since the beginning of post graduate studies. Dr. Dholakia with his scrupulous enthusiasm following the 2004 tsunami disaster had created the opportunity for me to pursue in this endeavor, which I consider a complete privilege. Relentlessly compassionate and constructively critical, he shaped up my research with his share of knowledge and multitude of suggestions. The freedom he urged me to exercise in pursuing my ideas, and the clarity with which he communicated, will serve as lasting models in me for the rest of my life.

Dr. Singh, being my co-supervisor, has never failed to inspire me with his energetic yet temperate character. I am particularly thankful to him for his unremitting curiosity of my research and beyond. Dr. Singh’s supervision spreads in a broad range of spectrum from methodical progress appraisals to a miniature detail of my presentations. He was instrumental in creating a splendid learning environment for me within the Project Management Specialization. His knowledge, flexibility and approachability exemplify key virtues of an academic.

It is my pleasure to be thankful to Prof. Andrey Zaytsev, Prof. Ahmet Yalciner, Prof. Anton Chernov, Prof. Efim Pelinovsky and Prof. Andrey Kurkin for providing me NAMI-DANCE software and for their valuable assistance in tsunami numerical modelling of this study. Profs. Nobuo Shuto, Costas Synolakis, Emile Okal and Fumihiko Imamura are acknowledged for invaluable endless collaboration. Also I thankful to Dr B. K. Rastogi, Director General, Institute of Seismological Research (ISR), for permission to use ISR library and other resource materials.
My sincere appreciation to Dr. Vikram M. Patel (Principal, Shankersinh Vaghela Bapu Institute of Technology, Gandhinagar) for valuable support from beginning to end of the study.

I would like to take this opportunity to thank my best friends H.T. Patel, D.N. Sheth, R.J. Patel (G.P. Palanpur), V.D. Patel, M.K. Patel, V.R. Patel (GEC, Patan), V.P. Patel, J.A. Patel, M.L. Patel (Ganpat University, Kherva). Your kind support and encouragement give me strength for completing the study.

I would like to thank all lecturers and staff members in K.D. Polytechnic, Patan for their support, especially to Shri N.B. Purohit, Shri K.K. Patel, Shri H.S. Patel, V.B. Patel, M.M. Shah, F.P. Ambaliya, K.B. Patel, M.S. Patel, Himanshu, Himalay, Minal, Mayuri, Minesh and Kanu.

Obviously, all my academic success counts back on love, help, support and encouragement that I got from my mother and my father. This wonderful duo has shaped who I am now. Very source of inspiration for my education Shri Rajnikant I. Patel and my sister Rashilaben I. Patel will be lovingly remembered. I could never thank enough my wife, Sneha V. Patel and my sister, Sonal B. Patel for keeping me sane and bearing all pains since me being literally on the other side of the Earth. My wife with her abundant love, blessings and encouragement certainly helped me to overleap difficult hurdles in the graduate life.
