List of Tables and Figures

Tables

2.1 Regional Disparity in Growth, Inequality and Poverty,
1957-58 to 2011-12(Rural & Urban).................................................................48

2.2 Estimated Linear Regression of Growth Rates of Variables
on Their Respective Initial Values.................................................................50

2.3 Inter-Temporal Movement of RCt and RCat in Rural Sector....................51

2.4 Inter-Temporal Movement of RCt and RCat in Urban Sector.....................52

3.1 Basic Statistics of Sample Household Consumption Expenditure Survey
Data....................................................................................................................62

3.2 The Estimates of Poverty in India in 1993-94 and 2004-05.....................63

3.3 Decomposition of Poverty into Growth and Redistribution (1993-94 to
2004-05) in India..............................................................................................66

3.4 Decomposition of Poverty into Growth and Redistribution (1993-94 to
2004-05) in States..............................................................................................69

3.5 Regional Breakdown of the Extent of Poverty in Rural Sector in 1993-94
and 2004-05.....................................................................................................78

3.6 Regional Breakdown of the Extent of Poverty in Urban Sector in 1993-94
and 2004-05.....................................................................................................79

3.7 Household Type Poverty Decomposition in Rural Sector.......................80

3.8 Household Type Poverty Decomposition in Urban Sector.......................83

4.1 Cross-Sectional Dependence Tests and Panel Unit Root Tests.................100

4.2 Panel Unit Root Tests under Common Factor and Half-Life Estimates.......101

4.3 Factor loadings Corresponding to High and Low Growth Factors...........102

4.4 Cross-section Dependence Tests and Panel Unit Root Tests for High
Growth States........................................................................................................103

4.5 Cross-Sectional Dependence Tests and Panel Unit Root Tests for Low
Growth.....................................................................................................................103

4.6 Panel Unit Root Tests under Common Factor Models for High Growth
States......................................................................................................................104

4.7 Panel Unit Root Tests under Common Factor for Low Growth States........104

5.1 Panel Unit Root Tests of Literacy, Poverty, Inequality..............................112

5.2 Results of Homogeneous Causality from Literacy to Poverty and
Inequality................................................................................................................113

5.3 Results of Homogeneous Causality from Poverty to Literacy..................113

5.4 Regression of Inequality on Literacy..............................................................114

5.5 Panel Regression (VAR) of Poverty, Inequality on Literacy.....................118

5.6 Panel Regression (VAR) of Literacy on Poverty..........................................119

6.1 Panel Unit Root Tests of Growth and Inequality..........................................128

6.2 Estimates of Individual and Time Effects ....................................................129

6.3 Test Results for Causality Hypotheses.........................................................130

6.4 Hausman Test for FE vs RE Models.............................................................131
Figures

2.1 Rural India: Consumption, Poverty and GINI Index…………………………..39
2.2 Urban India: Consumption, Poverty and GINI Index…………………………39
2.3 Original Consumption Series (MPCE) and Interpolated Consumption
Series (IMPCE)……………………………………………………………………..47
2.4 Original Absolute Poverty (HCI) and Interpolated Absolute Poverty
(IHCI)……………………………………………………………………………47
2.5 Original Inequality Series (GINI) and Interpolated Inequality Series
(IGINI)……………………………………………………………………………49
2.6 RURAL SECTOR: Behavior of CV of Consumption, Poverty, Inequality
Across States, 1958 to 2012……………………………………………………49
2.7 URBAN SECTOR: Behavior of CV of Consumption, Poverty, Inequality
Across States, 1958 to 2012……………………………………………………50
2.8 Inter-Temporal Variations of Rural and Urban Consumption
Distribution………………………………………………………………………55
2.9 Inter-Temporal Variations of Rural and Urban Absolute
Poverty……………………………………………………………………………55
2.10 Inter-Temporal Variations of Rural and Urban Inequality
(GINI)……………………………………………………………………………56
3.1(a) RURAL population: Cumulative effect on poverty
reduction………………………………………………………………………67
3.1(b) URBAN population: Cumulative effect on poverty
reduction………………………………………………………………………67
3.2.1 Regional profile of Poverty in Rural
Sector…………………………………………………………………………72
3.2.2 Percentage Contribution to Aggregate Poverty in Rural
Sector…………………………………………………………………………73
3.3.1 Regional Profile of Poverty in Urban
Sector…………………………………………………………………………74
3.3.2 Percentage Contribution to Aggregate Poverty in Urban Sector……………………………………………………………………………74

6.1 Inequality Versus Per Capita Consumption Expenditure…………………………………………………………………………………..132
