

LIST OF TABLES

Table No	CONTENTS	Page No
1.1	The various type of mixed models are explained below (Bar-On, R. 2006).	16-17
1.2	The domains of emotional intelligence and teaching strategies (Role-Play)	52
2.1	Difference and similarities between Pre- researches and existing research.	91-204
3.1	Framework and classification of cognitive domains and its percentage at eighth grade by TIMSS.	124
3.2	The criterion of the blue print with levels of cognition (TIMSS).	124
4.1	Mean & S.D. values of Educational outcome of the experimental group and the control group with respect to Knowing in post-test.	134
4.2	(t-test) Difference in Educational outcome with respect the knowing across groups.	135
4.3	Mean & S.D. values of Educational outcome of the experimental group and the control group with respect to Applying in post-test.	136
4.4	(t-test) Difference in Educational outcome with respect to Applying across groups in post-test.	137
4.5	Mean & S.D. values of Educational outcome of the experimental group and the control group with respect to Reasoning in post-test.	138
4.6	(t-test) Difference in Educational outcome with respect to Reasoning across groups in post-test.	139
4.7	Mean & S.D. values of total scores of educational outcome of the experimental group and the control group in post-test.	140
4.8	(t-test) Difference in Educational outcome across groups in post-test.	141
4.9	Mean & S.D, values of pre-test and post-test scores on Educational outcome with respect to (knowing-Applying-Reasoning) of experimental group.	144
4.10	(t-test) Difference in Educational outcome with respect to the (Knowledge – Application -	146

	Reasoning) across pre-test and post-test scores of experimental group.	
4.11	Mean & S.D, values of boys and girls on Educational outcome with respect to (knowing-Applying-Reasoning) of experimental group.	149
4.12	(t-test) Difference in Educational outcome with respect to (Knowledge-Applying-Reasoning) across gender (boys- girls) of experimental group.	151
4.13	Mean & S.D. of the experimental group in the pre-test scores and post-test scores on emotional intelligence scale.	152
4.14	(t-test) Difference in (the pre-test and the post-test) of experimental group on emotional intelligence	155
4.15	Mean & S.D. values of the experimental group and the control group scores in the post-test on Emotional Intelligence scale.	157
4.16	(t-test) Difference of experimental group and control group on Emotional Intelligence scale.	159
4.17	Mean & S.D of experimental group on Emotional Intelligence by gender (boy –girl).	162
4.18	(t-test) Difference among boys and girls of experimental group on Emotional Intelligence scale.	165
4.19	The correlation between Educational outcome and Emotional Intelligence scale of control group.	167
4.20	The correlation between Educational outcome and Emotional Intelligence scale of the experimental group.	168
4.21	The correlation between Educational outcome and Emotional Intelligence scale of experimental group and control group.	170
