# Chapter 1

## INTRODUCTION

1.1 Context of the Study ........................................................................................................... 2
1.2 Research Questions ............................................................................................................. 5
1.3 The Conceptual Background of the Study .......................................................................... 6
1.4 Need and Significance of the Study ..................................................................................... 7
1.5 Statement of the Problem .................................................................................................. 13
1.6 Definition of Key Terms .................................................................................................... 13
1.7 Hypotheses of the Study .................................................................................................... 17
1.8 Objectives of the Study ...................................................................................................... 18
1.9 Methodology in Brief ......................................................................................................... 19
   1.9.1 Research Population and Sample ............................................................................. 19
   1.9.2 Data gathering Devices Used in the study ............................................................... 20
   1.9.3 Statistical Procedures Used in the study ................................................................. 20
1.10 Scope of the Study .......................................................................................................... 21
1.11 Delimiting the Study ....................................................................................................... 22
1.12 Conclusion ....................................................................................................................... 23
1.13 Organisation of the Report ............................................................................................... 24

# Chapter 2

## THEORETICAL FRAMEWORK

2.1 Moral Development ............................................................................................................ 27
   2.1.1 Theoretical Perspectives on Moral Development ..................................................... 27
4.2.2 Variables of the study

4.3 Population and Sample of the Study
4.3.1 Population of the Study
4.3.2 Sampling Procedure
4.3.3 Sample of the Study

4.4 Data Gathering Devices
4.4.1 Personal Data Sheet
4.4.2 Value Analysis Model
4.4.3 Preparation of Value Analysis Model Worksheet
4.4.4 Value Clarification Model
4.4.5 Preparation of Students’ Worksheet based on Value Clarification Model (VCM)
4.4.6 Dilemma Sheet
4.4.7 Teaching Analysis Guide for VAM (TAG)
4.4.8 Value Clarification Task Sheet
4.4.9 Instructional Material based on Direct Instruction Method
4.4.10 Construction of Affective Domain Process Scale
4.4.11 Emotional Maturity Scale

4.5 Outline of Experimental Procedures

4.6 Statistical Techniques Used in the Study

Chapter 5
ANALYSIS AND INTERPRETATION OF DATA

5.1 Comparison of Total and Dimension-wise Affective Domain Processes of Secondary School Students in Experimental Group I, Experimental Group 2 and Control Group before and after Implementing the Instructional Materials.

5.1.1 Level of ADP Scores of Students before Implementing the Instructional Materials

5.1.2 Level of ADP scores of students in experimental and control groups after implementing the Instructional Materials
5.2 Comparison of Affective Domain Processes of Secondary School Students based on Gender, Stream of Study, No. of Siblings, Type of Family and Birth Order using t-test and One-way ANOVA.

5.2.1 Comparison of Affective Domain Processes of Secondary School Students based on Gender, Stream of Study, No. of Siblings, and Type of Family using t-test

5.2.2 Comparison of Affective Domain Processes of Secondary School Students based on Birth Order using One-way ANOVA

5.3 Comparison of Effectiveness of VAM, VCM and DIM on Total and Dimension-wise Affective Domain Processes of Secondary School Students.

5.3.1 Analysis of the Effectiveness of VAM over DIM on Total and Dimension-wise Affective Domain Processes of Secondary School Students

5.3.2 Analysis of the Effectiveness of VCM over DIM on Total and Dimension-wise Affective Domain Processes of Secondary School Students

5.3.3 Analysis of the Comparative Effectiveness of VAM and VCM on Total and Dimension-wise Affective Domain Processes of Secondary School Students.

5.4 Comparison of Pre, Post and Delayed post tests scores of Affective Domain Processes of students in Experimental Groups

5.4.1 Analysis of Pre, Post and Delayed Post tests scores of Affective Domain Processes of Secondary School Students: Experimental Group-1

5.4.2 Comparison of Pre, Post and Delayed Post tests scores of Affective Domain Processes of Secondary School Students: Experimental Group-2

5.5 Comparison of Effectiveness of VAM and VCM on the Affective Domain Processes of Students at different levels of Emotional Maturity.
5.5.1 Comparison of Effectiveness of VAM on the Affective Domain Processes of Secondary School students at different levels of Emotional Maturity: Experimental Group-1

5.5.2 Comparison of Effectiveness of VCM on the Affective Domain Processes of students at different levels of Emotional Maturity: Experimental Group-2

Chapter 6
SUMMARY CONCLUSIONS AND SUGGESTIONS

6.1 Study in Retrospect 251
   6.1.1 Restatement of the Problem 251
   6.1.2 Objectives of the Study 252
   6.1.3 Methodology in Brief 253

6.2 Conclusions Based on Findings of the Study 254

6.3 Relating theory to the Findings of the Present Study 261

6.4 New Insights Gained from the Study 262

6.5 Educational Implications of the Study 263

6.6 Limitations Encountered in the Study 269

6.7 Suggestions for Further Research 270

BIBLIOGRAPHY

APPENDICES
