ACKNOWLEDGEMENT

During this research work, I have had various types of assistance from my elders and friends I am deeply indebted to all of them. I am sincerely grateful in particular to,

Dr. P.G. Jadhav, my research guide, who inspired me to undertake the present research project with his valuable guidance.

Dr. R. Nagabhushanam, Professor and Head of the Department of Zoology, Marathwada University is remembered here for giving me laboratory facilities.

Authorities of University Grants Commission for giving me Junior Research Fellowship.

Mr. K.R. Reddy my colleague has given me a co-operation.

My friends, Lata, Jyotsna, Subuhi, Shakila and Sunita helped me greatly.

My younger brother Babloo Choudhary affectionately helped me throughout my work.

My father-in-law, mother-in-law and my husband showed interest in my work and encouraged me for completing my research project.

Mr. Nitin Nikam for typing out the entire work sincerely.

Several others, of my friends and relatives are also acknowledged, whose individual names are not possible in this short space.
