LIST OF FIGURES

Figure 1.1 Most analyzed heavy metals in biota of environmental compartments 30
Figure 2.1 Location map of Maharashtra and India showing Nanded District 36
Figure 2.2 Location map of Nanded district showing Nanded taluka 36
Figure 2.3 Location and study area map of Nanded city 37
Figure 2.4: Google image of study area showing location of the samples 37
Figure 5.1: Average variations of chlorophyll in leaves of A. indica 77
Figure 5.2: Average variations of carotenoid in leaves of A. indica 78
Figure 5.3: Monthly mean values of copper in leaves of A. indica 79
Figure 5.4: Monthly mean values of lead in leaves of A. indica 80
Figure 5.5: Monthly mean values of zinc in leaves of A. indica 81
Figure 5.6: Average variants of chlorophyll in leaves of D. regia 82
Figure 5.7: Average variations of carotenoid in leaves of D. regia 83
Figure 5.8: Monthly mean values of copper in leaves of D. regia 84
Figure 5.9: Monthly mean values of lead in leaves of D. regia 85
Figure 5.10: Monthly mean values of zinc in leaves of D. regia 86
Figure 5.11: Average variations of chlorophyll in leaves of D. sissoo 87
Figure 5.12: Average variations of carotenoid in leaves of D. sissoo 88
Figure 5.13: Monthly mean values of copper in leaves of D. sissoo 89
Figure 5.14: Monthly mean values of lead in leaves of D. sissoo 90
Figure 5.15: Monthly mean values of zinc in leaves of D. sissoo 91
Figure 5.16: Average variant of chlorophyll in leaves of F. benghalensis 92
Figure 5.17: Average variations of carotenoid in leaves of F. benghalensis 93
Figure 5.18: Monthly mean values of copper in leaves of F. benghalensis 94
Figure 5.19: Monthly mean values of lead in leaves of F. benghalensis 95
Figure 5.20: Monthly mean values of zinc in leaves of F. benghalensis 96
Figure 5.21: Average variations of chlorophyll in leaves of F. religiosa 97
Figure 5.22: Average variations of carotenoid in leaves of F. religiosa 98
Figure 5.23: Monthly mean values of copper in leaves of F. religiosa 99
Figure 5.24: Monthly mean values of lead in leaves of F. religiosa 100
Figure 5.25: Monthly mean values of zinc in leaves of F. religiosa 101
Figure 5.26: Average variations of chlorophyll in leaves of P. longifolia 102
Figure 5.27: Average variations of carotenoid in leaves of *P. longifolia*  
Figure 5.28: Monthly mean values of copper in leaves of *P. longifolia*  
Figure 5.29: Monthly mean values of lead in leaves of *P. longifolia*  
Figure 5.30: Monthly mean values of zinc in leaves of *P. longifolia*  
Figure 5.31: Average value of total chlorophyll in selected six plant species  
Figure 5.32: Mean values of carotenoid in six studied plant species  
Figure 5.33: Average values of selected plants for pigment analysis in leaves  
Figure 5.34: Mean values of heavy metals in six studied plant species  
Figure 5.35: Mean values of copper (Cu) in six selected plant species  
Figure 5.36: Average concentration of lead (Pb) in six studied plants  
Figure 5.37: Mean values of zinc (Zn) in six studied plant species  
Figure 5.38: Mean level of principal plants observed in Nanded city  
Figure 5.39: Percentage of plant population observed during study period
