Contents                            
List of maps                        
List of figures                     
List of tables                      
List of plates                      

CHAPTER–1 INTRODUCTION            8 - 22
    1.1–Fish Fauna                  
    1.2- Association Index         

CHAPTER–2 STUDY AREA              23-32
    2.1- Site Location of Selected Ponds 

CHAPTER–3 REVIEW OF LITERATURE   33-41
    3.1- FISH FAUNA                
    3.2- Studies on Indian fish fauna 
    3.3- Fish Fauna of Madhya Pradesh and Chhattisgarh 
    3.4- Review on interspecific association and association coefficient 

CHAPTER–4 MATERIAL AND METHODS  42-146
    4.1- Species Identification   
    4.2- Physicochemical Properties of Water Bodies 
    4.3 -Association              

CHAPTER–5 OBSERVATION            147–181
    5.1- Water Quality Parameter  
    5.2- List of Fishes recorded in Kanker District 
    5.3- Systemstic Position of Fish Fauna 

CHAPTER–6 RESULT AND DISCUSSION  182 -183
    6.1-Water Quality Parameters 
    6.2- Fish Fauna Diversity 
    6.3- Association Index        
    6.4- Coefficient of association (C) 

General Remarks                   
Bibliography

LIST OF MAPS

MAP NO.  PARTICULARS  
Map -2.1  Index Map Of Kanker District (C.G.)  
Map -2.2  Index Map of Kanker Ponds  

LIST OF FIGURES

FIG. NO.  PARTICULARS  
Fig .- 2.1  Monthly Meteorological data of Raipur Station for the year 2009  
Fig - 2.2  Monthly Meteorological data of Raipur Station for the year 2010  
Fig. - 2.3  Monthly Meteorological data of Jagdalpur Station for the year 2009  
Fig. - 2.4  Monthly Meteorological data of Jagdalpur Station for the year 2010  
Fig. - 2.5  Monthly Meteorological data (Rainfall) for Raipur for both stations  
Fig - 5 .1  Mean values of seasonal variation in average water Temperature  
Fig - 5.2  Mean values of seasonal variation in average water pH  
Fig - 5.3  Mean values of seasonal variation in average water conductivity  
Fig - 5.4  Mean values of seasonal variation in average water Redox Potential  
Fig. - 5.5  Fish species diversity in ponds of Kanker District  
Fig. - 5.6  Percent contribution of species to the orders  
Fig.- 5.7  Percent contribution of genera to the order  
Fig. - 5.8  Percent contribution of families to the orders  
Fig. - 5.9  Percent contribution of genera to the families  
Fig. - 5.10  Percent contribution of species to the families  

LIST OF TABLES

TABLE NO.  PARTICULARS  
Table –2.1  Monthly meteorological data of Raipur station for th Year 2009  
Table -2.2  Monthly meteorological data of Raipur station for the year 2010  
Table -2.3  Monthly meteorological data of Jagdalpur station for the year 2009  

Table -2.4  Monthly meteorological data of Jagdalpur station for the year 2010 14
Table -2.5  Details of water bodies 22
Table-5.1 a & b  Mean values of monthly and seasonal variation in temperature 44
Table-5.1 c & d  Mean values of monthly and seasonal variation in pH 45
Table-5.1 e & f  Mean values of monthly and seasonal variation in conductivity 46
Table-5.1 g & h  Mean values of monthly and seasonal variation in ORP 47
Table-5.2  Number and percent composition of families, genera and species under various orders 65
Table-5.3  Number and percent composition of genera and species Under various families 66
Table-5.4  Distribution of fish species in different collection site 131
Table-5.5  Number of fish species belonging to Families in different water bodies 134
Table -5.6  Degree of positive and negative association between 2022 specie Pairs.135
Table -5.7  Showing number of sample units (ponds) containing both species in 2022 species pairs of 65 species. 146
Table -6.1  Fish species in ponds and reservoir of Kanker district and their comparison from previous study 176
Table -6.1  Fish Species and Relative Abundance in Different Water bodies 179
