ACKNOWLEDGEMENT

At the dusk of this work, when I sit to pen down my gratitude, my vocabulary fails me, yet at the same time it is a profound privilege in itself.

My sincere thanks to my honourable, revered, learned and affectionate guide Dr. K.L. Tiwari, Professor & Head (retired), School of Studies, Biotechnology, Pt. Ravishankar Shukla University, Raipur (C.G.) who with his unique blend of expertise and patience, provided scholarly guidance and constant motivations to me. I take this opportunity to bestow flowers of regards, gratitude and indebtedness at his feet, who inspite of his onerous duties, gave excellent guidance, valuable suggestions and constant dynamic supervision to this work. He ameliorated my work at every step. He was always there- the final answer to all my queries, the end solution to all my problems and the guiding light the epitome of a teacher. Without his constant guidance, innovative ideas and writing efforts, this work would not have seen the light of day. His keen interest and kind help, made this thesis take the form presented herein. His voluminous experience, expertise as a teacher and lucidity of monumental knowledge has acted as a lighthouse for a ship in storm, and has guided me at every step of my journey across the vast ocean of knowledge. Thank you sir for helping me make this endeavor a reality.

I am very much thankful to my teacher and co-guide, Dr. U .S . Paikara MD, Professor & Dean Government Medical College Jagdalpur (C.G.) for their guidance, constant direction and unhesitating supervision throughout the present work. Thank you sir for making this thesis take the form presented herein.

I owe special thanks to Dr S. K. Jadhav, Professor, School of studies in Biotechnology, Pt. Ravishankar Shukla University, Raipur (C.G.) for the support and cooperation.

My sincere thanks to the authorities, Pt. Ravishankar Shukla University, Raipur (C.G.) for permitting me to carry out this work.
I owe special thanks to My Wife Dr Asmita Singh Gupta BDS. MDS for her constant support and encouragement that helped me to complete this work.

Parents (Prof. G. B. Gupta and Mrs. Urmila Gupta) are always a perpetual source of inspiration and encouragement. No words can express what their constant undemanding love, sacrifices, dedication and prayers have done to help me achieve, whatever I am today. My humble salutations to my Parents for their good wishes and untiring encouragement.

I would like to thanks to Dr Deepesh Gupta & Dr Vineeta Gupta for their support and co-operation.

My special thanks are to Madhu Manikpuri, Prakash Khunte, Paraji and Prachi for their valuable guidance and co-operation.

I wish to give my sincere thanks to Mr Ramesh Verma, Mr R.R.Markam and Mr Santosh Kumar Manikpuri for their needful during the period of investigation.

I express my thankfulness to Mrs Shubhra Tiwari, Mrs Neha Behar Joshi, Miss Shubra Thakur, Ms Tripti Agrawal, Ms Alka Kaushik and Mr Tikendra Verma for their considerable advice and kind help throughout the work.

I thank all those people who have stopped to offer me genuine words of advice and encouragement, all whose names it would be impossible to pen in this finite space.

Before I conclude I express thanks from the bottom of my heart to all my patients, who permitted me to conduct my study in spite of their suffering. Without their co-operation I could not have completed my thesis work.

Last but not the least, let me not forget the almighty god for his benevolence and blessings bestowed upon me.
