ACKNOWLEDGMENTS

First and foremost, I would like to thank God for giving me wisdom, guidance and for being with me all the time. Without Him, I never would have had the courage and resilience to do this thesis.

It is my great pleasure to express a deep sense of gratitude to my research guide, Dr. A. M. Manonmani, Scientist E for her excellent guidance and constant encouragement during the course of this investigation. Her idea of giving independence in designing experiments really inspired me many a times. Her understanding and personal guidance have provided a good basis for the present thesis.

I especially want to thank Dr. K. Balaraman, Deputy Director (SG) Rtd. and Dr. K. P. Paily, Scientist D for their valuable suggestions, constructive discussions, keen interest and constant encouragement during the tenure of this project. I would like to thank our former Director Dr. P. K. Das & Dr. M. Kalyanasundaram, Scientist F & Officer-in-charge for providing me with the opportunity to complete my Ph. D. thesis at Vector Control Research Centre. My sincere thanks to Dr. S. L. Hoti, Scientist F, Head, Unit of Microbiology & Immunology, for being a constant source of inspiration and valuable suggestions towards the present work.

I would like to thank my Doctoral Committee member Dr. B. N. Harish, Professor, Department of Microbiology, JIPMER, Puducherry, for his valuable suggestions and advice on my research.

Dr. Nisha Matthew, Scientist C for her help in IR analysis of my sample. I am thankful to Dr. N. Pradeep Kumar, Scientist D, Dr. P. Jambulingam, Scientist F for allowing me to work in their labs.

I am very grateful to Dr. S. Sabesan, Scientist F & Chief, HRD for his moral support whenever needed.

My sincere thanks are due to Mr. S. Venugoplan, for all his co-operation throughout my studies. Without him this research would have been most difficult. I thank Mr. R. Murugasamy, Mr. V. Padmanabhan, Mr. A. Ramamoorthy, Mr. Rajkumar for their help rendered throughout the study.

I thank Mr. G. Prabakaran, Research Assistant, for his effort in collecting samples from Andaman & Nicobar Islands. I thank Dr. A.R. Rajavel, Scientist C and his team for providing me the photographs and description of the study area. I also
thank Mr. K. Harikishan Raju, Research Assistant for his help in making Andaman & Nicobar map, Mr. M. Palaniyandi, Research Assistant for his help in scanning, Mr. P. Sakthivel, Technical Officer for his assistance in taking the photographs, Dr. P. Vanamail, Technical Officer, Dr. S. Subramanian, Scientist D & Mr. A. Elango, Technical Officer for their help in statistical analysis.

I thank all the other Scientists and staff members of Unit of Microbiology & Immunology for their suggestions and constant support in completing this work. I wish to thank all the Research Scholars for their kind co-operation, understanding and assistance.

I thank the staff of rearing and colonization unit of our centre for their constant supply of immatures of mosquitoes.

I wish to express my gratitude to Librarian, Mrs. R. Sundarambal and Library staff for their help in literature collection. My sincere thanks go to Mrs. B. Parasakthy and Ms. Kalaiselvi for mobilizing all my official papers to university.

My special thanks are due to Mr. B. Agiesh kumar, Mr. R. Dhamodharan and Ms. T. Sankari for their help during the study period.

Finally, I owe my loving thanks to my husband Joseph C. Daniel, my sons Joseph Samuel and Joseph Beniel for their love and understanding. My special gratitude is due to my mother & sister for their loving support.

I. Geetha
