Here is a time to express to my gratitude to those generous soul who have contribute to this project work. It was the matter of great pleasure and excitement for me when Mr. P. U. Shah, EDP Manager, GACL selected me for the project work for my M.C.A. - VI semester and taking keen interest in my project and providing valuable guidance during this project work. The numerous discussion held with him were always meaningful enjoyable and simulating.

I am very grateful for the immense help, encouragement, guiding me in analysis, design and development of this system that I have received from my project guide Mr. Ramniklal Dholaria, System Analyst, GACL during the project. Its inspired ideas helped me in my entire project work, The EDP staff at GACL was really instrumental in the development of this project.

I am sincerely thanks to all programmers and all operators staff for their kind co-operation throughout the project. A special and sincere vote of thanks is due to all the User Departments for extending their support in the development of this system.

There would not be any exaggeration if I mention here that this course of M.C.A. as well as this project would not have been a reality without the continuous support, motivation and inspiration extended by Dr. K. M. Jhaveri, Head of Dept., Dept. of Computer Science & Application, Bhavnagar University. His creative instincts and feel for the students need are evident throughout.

I take this opportunity to express my deep sense of gratitude to my teachers Miss Bina Khimani, Mr. J. M. Kalathiyaa, Mr. B. B. Bhatt, Mr. A. A. Khambhati who have been so affectionate and supportive and have provided guidance at each & every stage of my study throughout this course. I also extend my gratitude to the Miss Nirmala madam, Mr. Paresh Andhariya, Mr. R. B. Shah for giving me a protrusive guidance and support throughout my M.C.A. career.

I wish to express my heartfelt thanks to my friend Mr. Devang Joshi, for being so understanding and supportive throughout the project. I am greatly thankful to Mr.
Rupesh Koradiya, Programmer, GAEL for his frank and friendly support throughout the project and valuable guidance in preparing this report. Without any more expectation finally I thank all my colleges and others who have been helping me directly or indirectly during my study and making this project a success.

The whole course of this project truly provided a challenging and exhilarating experience in designing a system which would strive to answer the diverse business needs of the Organization & developing it using FOXPRO (2.6).
