2.7 Concept and Assessment of Anxiety

2.7.1 Anxiety as a Negative Emotion

2.7.2 Assessment of Anxiety

III. REVIEW OF RELATED LITERATURE

3.1 Prevalence of Cardiovascular Disorders/ Essential Hypertension

3.2 Sociodemographic Factors in Cardiovascular Disorders

3.2.1 Sociodemographic factors and Coronary Heart Disease

3.2.2 Sociodemographic factors and Essential Hypertension/Elevated Blood Pressure

3.3 Life Stress and Cardiovascular Disorders

3.3.1 Life Stress and Coronary Heart Disease

3.3.2 Life Stress and Essential Hypertension/Elevated Blood Pressure

3.4 Type A Behaviour Pattern and Cardiovascular Disorders

3.4.1 Type A Behaviour Pattern and Coronary Heart Disease

3.4.2 Type A Behaviour Pattern and Essential Hypertension/Elevated Blood Pressure

3.5 Emotions and Cardiovascular Disorders

3.5.1 Anger, Anger Expression and Essential Hypertension/Elevated Blood Pressure

3.5.2 Anxiety and Essential Hypertension/ Elevated Blood Pressure

3.6 Hypothesis
IV METHODOLOGY

4.1 Sample

4.2 Tools used

4.2.1 Life Stress Scale

4.2.2 Jenkins Activity Survey-Form B (JAS)

4.2.3 Hindi Version of State-Trait Anger Expression Inventory (STAXI)

4.2.4 Hindi Version of State-Trait Anxiety Inventory (STAI)

4.3 Data Collection

4.4 Scoring

4.4.1 Scoring of the Life Stress Scale (LSS)

4.4.2 Scoring of the Jenkins Activity Survey Form B (JAS)

4.4.3 Scoring of the STAXI Scales

4.4.4 Scoring of A-Trait Scale of STAI

4.5 Statistical Analysis

V. RESULTS

5.1 Stressful Life Events (Percentage and perceived impact in Hypertensives and Normotensives

5.1.1 Impact of Positive and Negative Life Changes in Hypertensives and Normotensives

5.1.2 Life Events Clusters in respect of Hypertensives and Normotensives

5.2 JAS - Type A Behaviour Pattern (TABP), Trait Anger and Trait Anxiety in Hypertensives and Normotensives
5.3 Modes of Anger Expression in Hypertensives and Normotensives

5.4 Life Events Stress, TABP, Anger and Anxiety as Discriminators of Hypertensive and Normotensive Controls

5.4.1 Life Events Stress, TABP, Anger and Anxiety as Discriminators of Male Hypertensive and Normotensive Controls

5.4.2 Life Events Stress, TABP, Anger and Anxiety as discriminators of Female Hypertensive and Normotensive Controls

VI DISCUSSION

6.1 Stressful Life Events (Percentage and Perceived Impact) in Hypertensives and Normotensives

6.1.1 Percentage of Occurrence of Life Events

6.1.2 Perceived Impact (Intensity) of Life Events

6.1.3 Impact of Positive and Negative Life Changes

6.1.4 Life Events Clusters in Hypertensives

6.2 JAS-Type A Behaviour Pattern (TABP), Trait-Anger and Trait Anxiety in Hypertensives and Normotensives

6.2.1 TABP in Patient Groups

6.2.2 Trait Anger in Hypertensives and Normotensives

6.2.3 Trait Anxiety in Hypertensives and Normotensives

6.3 Anger Expression and its Modes (Anger-In, Anger-Out and Anger-Control) in Hypertensives and Normotensives

6.3.1 Anger-Expression (AX/EX) in Patient Groups

6.3.2 Anger-In (AX/In) in Patient Groups

6.3.3 Anger-Out (AX/Out) in Patient Groups

6.3.4 Anger-Control (AX/Con) in Patient Groups
6.4 Life Stress, Type A Behaviour Pattern, Anger and Anxiety as Discriminators of Hypertensives and Normotensives Controls
- Clinical Implications
- Suggestions for Future Research

VII SUMMARY 232-241
- Background 232

7.1 Objectives of the study 235
7.2 Hypotheses 236
7.3 Sample 237
7.4 Tools Used 238
7.5 Procedure 238
7.6 Statistical Analysis 239
7.7 Findings 239
