ACKNOWLEDGEMENTS

I feel tremendously excited in recording my gratitude to my esteemed research Supervisor Dr. R.C. Sharma, F.N.A.Sc, Professor, Department of Mathematics, Himachal Pradesh University Shimla, for his valuable suggestions, unstinted encouragement, unassuming and unshrinking guidance, which have gone a long way in accomplishing the present research work. His whole hearted cooperation, sympathy and patience to improve the quality of this work not only induced clarity and precision in my thinking, but also gave me pleasure and privilege while working with him.

I am grateful to Prof. K.S. Shirkot, Chairman, Department of Mathematics, Himachal Pradesh University, Shimla, for providing me the necessary research facilities, help and encouragement.

I express my sincere thanks to Principal, Staff members and my students of St. Bede's College, Shimla (H.P.), who had to bear with me in my all engrossing pre-occupation with my studies.

My wife, Mrs. Rekha Bhardwaj has been the inspiration personified, a constant reminder of strenuous efforts needed to complete my work. My brother, Ajay exhibited keen interest in my research work and unflinchingly lent a helping hand in the completion of this work. My thanks are also due to lovely stars Aditi and Akshay, for their everlasting affection and sense of humour during the tense moments.

Lastly, sincere thanks are due to Sh. Prem Chauhan for meticulous typing of the manuscript.
