CHAPTER I

1.0 Introduction 1
1.1 Individualising Instruction 2
1.2 Educational Technology 5
1.3 Academic Underachievement 7
1.4 Individualised Instruction for Underachievers 11
1.5 Programmed Learning as an Individualised Technique 13
1.6 Changing Concepts of Programmed Learning and Modifications in Programmed Learning Approach 15
1.7 Pairing in Learning 17
1.8 Paired Programmed Learning 20
1.9 The Study 23

Significance - Statement of the Problem - Assumption - Scope and Limitations - Definition of Terms - The Major Objective

1.10 Conclusion 27

CHAPTER II

2.0 Introduction 28
2.1 Learning Contexts 29
2.2 Theoretical Orientation 35
2.3 Programmed Learning and Paired Learning 45
2.4 A Compromise - Programmed Learning in Pairs 47
2.5 The Study Conceptualised 54
Programmed Learning in Pairs-Model Classroom Application
The Conceptual framework of the Study

2.6 Conclusion 60
### CHAPTER III

**PREVIOUS STUDIES**  61-112

3.0 Introduction 61  
3.1 Studies on Paired Learning 61  
3.2 Programmed Learning in Groups and Pairs 78  
3.3 Studies on Underachievers 96  
3.4 Meta - Analytic Studies 108  
3.5 Present Status and Needed Research in Paired Programmed Learning 109  
3.6 Related Studies in Mathematics 111  
3.7 Conclusion 112  

### CHAPTER IV

**PROCEDURE**  113-158

4.0 Introduction 113  
4.1 The Problem 113  
4.2 Objectives of the Study 113  
4.3 Variables Selected 114  
4.4 Hypotheses 117  
4.5 Methodology 118  

Programmed Learning Material and Tools - Sample - Pairing Modes - Design - Statistics  
4.6 Conclusion 157  

### CHAPTER V

**DATA ANALYSIS**  159-219

5.0 Introduction 159  
5.1 Method of Analysis 159  
5.2 Descriptive Analysis 161  

The Performance of Whole Sample, Underachievers and Able Peers  
5.3 Differential Analysis 180  

The Performance of Underachievers and Able Peers  
Underachievers in the three Pairing Modes  
Underachievers in the three Pairing Modes in the Urban and Semiurban School Groups  
Able Peers in the three Pairing Modes
CHAPTER VI SUMMARY AND SUGGESTIONS 220-236

6.0 Introduction 220
6.1 Research Design 220
6.2 Procedure 222
6.3 Major Findings 224
6.4 Educational Implications 230
6.5 Suggestions for Further Study 234
6.6 Conclusion 235

APPENDIX

A The Programmed Learning Material
B Achievement Test in Mathematics
C Interest (in Mathematics) - Inventory
D Syllabus in Mathematics for Standard IX

BIBLIOGRAPHY
