Subject: Submission of revised PhD. Thesis

Respected sir,

This has reference to the presentation made before the expert committee after submission of the spiral copy of my Ph.D. Thesis. The committee had suggested a number of modifications to be carried out. Accordingly I have carried out the following modifications,

1. Exhaustive spelling check has been carried out.
2. References quoted at the end of each chapter have been considered in bibliography too.
3. Chapter sixth title has been changed appropriately as data analysis and interpretation.
4. Findings have been classified and sequenced according to the objectives.
5. Recommendations put forward focusing on Konkan food processing units.
6. Sample size selected for the study has been presented in a tabular form.
7. Suggestions have been addressed to the food processing units under the study area.

Kindly permit me to submit the final copy for further processing

Yours sincerely

Shri. M.R.Kumbhar
