ACKNOWLEDGEMENTS

Firstly, with profound veneration, I bow in reverence to the ‘God’ with whose grace and blessings I have been able to accomplish another chapter of my life successfully.

I owe my deep, unsound sense of gratitude and obligation to my esteemed supervisor, Dr. Gursatej Gandhl, Reader, Department of Human Genetics, Guru Nanak Dev University, Amritsar for her invaluable support, sincere efforts, keen interest, lively and caring nature, encouragement and dexterous guidance from initial to the final level that has enabled me to reach this stage of academic attainment.

I am grateful to Dr. Vanita Kumar, Head, Department of Human Genetics, Guru Nanak Dev University, Amritsar for providing me necessary laboratory and computer facilities.

I am also grateful to Dr. Badrudozza, Assoc. Professor, Department of Human Genetics, Guru Nanak Dev University, Amritsar who has provided me unconditional help and expert advice on data analysis.

It gives me immense pleasure to express my deep sense of gratitude and regard to Dr. A.J.S. Bhanwer, Dr. Sharda Sidhu, Dr. Vasudha Sambyal, Dr. Anupam Kaur, Dr. Kamlesh Guleria, Dr. Manpreet Kaur and Dr. Sanjana Mehrotra, Department of Human Genetics, Guru Nanak Dev University, Amritsar for their meticulous care and support, and persistent efforts in imparting me the knowledge of this rapidly evolving field.

I am grateful to Dr. R.K. Aggarwal (CCMB, Hyderabad) for training in his lab, and providing me valuable and timely help related to molecular work. I am also grateful to Dr. Neeraj Rai for helping in haplotype analysis.

I extend my thanks to sports coaches for providing me blood samples. I am also thankful to all the subjects included in the study, as without their cooperation my research work would not have been possible.

I am thankful to University Grants Commission (UGC), New Delhi for providing financial assistance under Centre for Excellence in Sports Sciences (CESS) and University with Potential for Excellence (UPE) fellowships to carry out the present investigation.
I express my thanks to the non-teaching staff, Mr. Kewal Sir, Mr. Surjit Singh, Mr. Lakhi Chand Ramola, Mr. Gurmeet Singh, Mr. Gurbax Singh and Mr. Balbir Singh, and Mr. Khushwant Rai Bhaiya, for their cooperation and help concerning administrative work.

It is a great pleasure to extend my thanks to my friends and labmates, Kapila, Naresh, Akbar, Gurpreet, Gurleen, Aarti, Rajni Mam, Ravinder, Maninder, Komal and Shailey for providing pleasant environment in the lab and for their selfless support, love, inspiration, help and constant encouragement in my research work. I am especially thankful to my friend Kapila Mahajan for her love, care and help in the awful moments.

I bow my head to my beloved parents Sh. Deepak Sharma and Smt. Saroj Sharma, brother Aditya, and sister Nidhi, brother-in-law Vikrant and niece Avantika, and shall never be able to express to any degree of satisfaction my deepest feelings of gratefulness for their generous support, positive attitude, unreserved blessings, motivation in even and odd times and self-felt but untold sacrifices for my better and bright future.
