Acknowledgements

First and foremost, I would like to humbly thank the Almighty God, whose sustaining grace has been sufficient for me to complete this endeavor. Thank God for the wisdom and perseverance he bestowed upon me during this research project, and indeed, throughout my life.

Heartily, I would like to express my sincere gratitude to my supervisor Dr. Paramvir Singh Ahuja, for his valuable advice, insightful comments and encouragement during my research work. He encouraged critical independent thinking and shared valuable research and professional insights that enabled me to develop as an independent individual. His wide knowledge and logical way of thinking have been of great value for me. He had taken great pains, starting from initial planning of research to the careful editing of this manuscript. I thank him for guiding me not only in research but also in other facets of my life inspite of his busy schedule. I am thankful to him for being available whenever needed and helping me out from various crises, scientific or otherwise. I cannot imagine how hard it would have been for me to successfully complete my work without his leadership. I am also extremely indebted and thankful to his family members for so much affection, care and blessings.

I would like to express my sincere gratitude to Dr. Anil Sood, Head, Biotechnology Division, for his constant encouragement, suggestions and warm support and providing me facilities and constant encouragement during the course of my studies. I sincerely thank Drs Madhu Sharma, Amita Bhattacharya for all the help in checking the manuscript, helpful discussions, ideas and comments.

I feel obliged to Drs, Sanjay Kumar and Anil Singh, and extend my heartfelt appreciation for experimental planning, constructive criticism, ideas, attitude toward research, suggestions and support throughout this research work. I am indebted to Drs S.K. Vats and Nirmal De for their support in IRGA measurements, deep understanding and very useful discussions on research and other aspects. I would also like to thank Shri Om Prakash and Shri Praveen for all support during hardening of plants.

I express my sincere gratitude to Drs Sanjay Kumar, Y. Sreenivasulu, Tejpal Gill and Associates Paul for providing the constructs harbouring CstLP and CspPO genes. I express my sincere thanks to Drs Narpinder Singh and Sandeep Singh, Food Tech, Dept., G.N.D.U. for providing all the guidance and support on food attribute analysis. I thank and acknowledge Director, CPRJ, Shimla for providing the in vitro shoot cultures of potato cultivar Kufri Giriraj and the strain of Phytophthora infestans for disease screening. I pay my sincere thanks to Dr. Arvind Gulati for the help extended during enrolment, registration and submission of PhD and for the valuable advice during experiments.

I must convey my gratitude to the laboratory staff especially Shri Praveen, Sanjay, Sandeep, Surinder, Tilak, Ankush, and Manoj for their day to day assistance in my research work. I extend my warm thanks especially to Shri Om Prakash ji, Sanjoy Chanda and Pabitra Gain for their help and support. I am thankful for the support I got from the staff at IHBT (administration, library, stores, ESU, guest house, security) and others in the
Biotechnology Division. I thank the hostel cooks Adesh, Sansar and Sanjeev for the meals through these years that provided me with all the energy to accomplish the work.

I thank Dr. Gurcharan Kaur, Head, Deptt. of Biotechnology, Dr. Prabhjeet Singh and Dr. Pratap Kumar Pati Deptt. of Biotechnology, GNDU, Amritsar, for the kind help extended during enrolment and registration to Ph.D. I acknowledge the Council of Scientific and Industrial Research (CSIR) for all the fellowships and funding provided during the course of the work.

A warm thanks to all the seniors Drs Sanjay Ghowana, Pradeep Kumar Bhardwaj, Dhiraj Vyas, A. R, Sherpa, Gaurav Raikhi, Amit Chawla, Indra Sandal, Amit Kharagwal, Navtej Kaur, Arti Gupta, Sonia Malik and Uksha Saini. I also pay my sincere thanks to my past labmates Drs Musharoff Hossain, Rupali Mehta, Kran Devi, Devinder Kaur, Amrina Shaffi, Bhuvnesh, Pooja Thappa, Mohina, Neha Rana, Pooja Sharma. Sincere thanks are also extended to my lovable friends Awadhes Kumar Pal, Ravi Shankar Singh, Parvin Rahi, Arun Rana, Hitesh Thakur Upendra Sharma, Nandini Sharma, Rakesh for all the support, lively and warm atmosphere since the beginning of my work at IHBT. I am grateful to them for their friendship, support and the fond memories. I thank my old friends Amit Gupta, Mr. Manish Teotia, Rakesh, Gaurav Mishra, Saurabh Kapoor, Katlash, Ashutosh, Vivek Mann, Abishek Sharma, Ravi Nagpal etc. I am extremely thankful to my cousins Hunny and Sunny and all the family members.

I am extremely thankful to Shri N.K. Jain (CMD, Neva Plantations) and all the Neva Staff for giving me sufficient time for completion of my thesis.

Finally, but most importantly thanks to my family for their never ending support over my entire educational career. Thanks to my father Shri Kuldip Raj and mother Maya Devi for the gift of life and immeasurable sacrifices. You voluntarily missed out on so many opportunities just to allow us, your children, to get the best education and future possible. You mean more to me than I could ever possibly express in words. Thanks for everything! I am especially grateful for the endless encouragement and love from sister and Jija ji and the ever cheerful and Naughty Akshit, thank you all for sharing my responsibilities towards the family and all the invisible support.

Perhaps, I forgot someone…..so, just in case: thank you to whom it concerns! I thank you all.

Karan Acharya
