Acknowledgements

Words are inadequate for expressing my gratitude to my research guide Dr. U. Syamaprasad, Scientist F, NIST (CSIR), Trivandrum for his valuable guidance and continuous encouragement. I have been benefited greatly from his vast experience and reservoir of knowledge.

I am immensely thankful to Prof. T. K. Chandrashekar, Director, NIST for all the facilities extended to me in NIST, Trivandrum.

I would be grateful to the former Principals Sri K. A. Hashim (Registrar, University of Kerala) and Sri E. Abdul Razac (Principal, T. K. M. College of Arts and Science, Kollam) and the present Principal Sri A. M. Rasheed of M.E.S. College, Nedumkandam for their help and inspirations.

My sincere thanks are due to Dr. K. G. K. Warrier, Head, Materials and Minerals Division, NIST for his support and encouragement.

With a profound sense of gratitude, I acknowledge the invaluable help, fruitful suggestions and discussions of Dr. R. P. Aloysius, Scientist C, NPL (CSIR), Delhi.

I am extremely grateful to Sri P. Guruswamy, Technical officer, NIST, Trivandrum for his encouragement, invaluable suggestions and keen interest, in the progress of my work.

I am deeply indebted to my research colleagues P. M. Sarun, K. Vinod, R. G. Abhilashkumar, S. Vinu, R. Shabna and Neson Varghese for their creative suggestions and lively assistance and above all their constant companionship in the course of my research work.

A. Nazeer, S. Thennavarajan, T. Antony Prabhu, S. S. Soorya, V. G. Prabitha, Navya Paul, B. Premlal, A. Vasudevan and Rosamma Sebastian have been helpful in many ways. I am immensely pleased to reciprocate their assistance.
Acknowledgements

Dr. Prabhakar Rao, Scientist, NIST (CSIR), Trivandrum showed extreme patience and interest in taking EDX measurements and his help is gratefully acknowledged.

I express my sincere thanks to Sri M. R. Chandran, Technical officer, NIST for his help in SEM analysis and Mr. V.M. Sreekumar, Research scholar for carrying out the DTA measurements.

Prof. Y. K. Kuo, Department of Physics, National Dong Hwa University, Hualien, Taiwan and Prof. Ashok Rao, Department of Physics, Manipal Institute of Technology, Manipal, Karnataka need special mention for their contribution in conducting thermo electric power and thermal conductivity measurements. My special thanks to them.

I would also be thankful to the management of M. E. S. College, Nedumkandam for extending their maximum possible assistance for my research.

I shall always remember with pleasure the encouragement and co-operation extended by my colleagues in M.E.S. College, Nedumkandam.

I must thank the University Grants Commission (UGC), India for granting a teacher fellowship under faculty improvement programme (FIP) in the X plan and Department of Higher Education, Kerala for granting deputation.

My deepest gratitude I must retain for my father, wife and children. But for their vigilant support and constant encouragement, I would not have been able to complete this thesis.

Above all let me express my sincere gratitude to the God almighty for blessing me with proper health and confidence in undertaking this Ph. D. work.

BIJU. A
