ACKNOWLEDGEMENT

A research work’s successful completion is usually the result of the collaborated inputs and support of many brains put together. This research of mine is no exception. I, therefore, am greatly indebted to all those who have provided their support, or have been a source of inspiration, during my journey from the inception of this research’s initiative, to reaching the summit.

A chariot runs swiftly where the horse takes it, but it is the charioteer who not only provides it the freedom to move, but also controls its movements. A research work’s reins, in the same fashion are controlled by the research guide. I wish to express my sincere gratitude to the eminent scholar and my esteemed guide and Ph.D. supervisor, Prof. Y.S. Shishodia, Pro – Vice Chancellor at Jagan Nath University. Not only his vision and inspiration, but his timely and critical analysis of my work has laid the foundation to the new avenues that I have discovered during my research work.

I am indeed grateful to Mr. Manish Gupta, Chancellor, Jagan Nath University, Jaipur, for providing encouragement and support for this research work.

I express my deep sense of gratitude to Mr. Deepak Gupta, Vice-Chairman, Jagan Nath Gupta Memorial Education Society, for his guidance, and also for providing a favourable and motivational environment for the research.

My sincere regards also go to Prof. V.K. Agarwal, Vice Chancellor at Jagan Nath University, Jaipur, for his valuable suggestions, motivation and blessings.

I would especially like to thank my friends, colleagues, and all the participants who have contributed their valuable suggestions and input for the research work. The various discussion sessions have added immensely to my personal
knowledge as well. I owe enormous intellectual debt towards all those who guided me directly or indirectly in completing this report and who have enlightened and enriched me with their knowledge.

My parents being earthly Gods in my life deserve much more than what I can weigh in words. Their silent prayers, aesthetic love, affection, and steel belief in my capabilities have enabled me to make this endeavour see the light of success.

Last but not the least; my gratifying thanks are due to the Almighty God and one and all, who contributed in any way to this research work.

MEENU DAVE
