I am heartily thankful to Prof. B. S. Mohite my guide, whose encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject. I salute him for his unbroken faith in experimentation and deep quest for scientific knowledge. I thank him not only for the guidance he rendered in the field of research but also for enlightening the path of my life with deep love for science. It was his support with which I could overcome my personal and scientific problems and this work could not have been completed without his inspiring guidance and constant encouragement during the course of research tenure.

Had I not been the kind of love, care and concern of my father Shri. Satyappa Madane and mother Sou. Gangubai Madane. It would have been impossible for me to reach this stage of my life. As parents, they provided me the entire essential support and encouragement not only for the period of this thesis but throughout my life.

I owe tremendous debt to Dr. S. R. Sabale, Dr. S. R. Kulal and Dr. D. V. Jadhav for their scientific guidance, valuable suggestions and encouragement during this work.

I take this opportunity to thank Honorable Vice - Chancellor Prof. N. J. Pawar for the inspiration to achieve excellence at Department of Chemistry. I am also thankful to the Prof. M. A. Anuse, Head of the Department of Chemistry and Prof. P. P. Hankare, Prof. S. R. Patil for their good wishes and whole hearted support.
