

ACKNOWLEDGEMENT

The author is fortunate to have **Dr. K.P.Jaya**, Associate Professor of Civil Engineering, Structural Engineering Division, Anna University, as her Research Supervisor and Guide. The author expresses her deep sense of gratitude for her valuable advice, constant support and encouragement.

The author is indebted to **Dr. A.R. Santhakumar**, Visiting Professor, Centre for Disaster Mitigation and Management, Anna University for his expert comments and suggestions given during periodic Committee Meetings. The author expresses her thanks to **Dr.Muthumani**, Deputy Director, Structural Engineering Research Centre, Chennai for his valuable support and encouragement.

The author wishes to thank **Dr. K. Sarukesi**, Vice Chancellor, and **Dr. R. Devanathan**, Principal, Hindustan University for their constant encouragement. The author is grateful to **Mr. Ashok Verghese**, Director, Hindustan University for giving necessary relief in the academic responsibility, enabling her to complete the experimental work. The author is much grateful to **Dr.P.S.Joanna**, Professor, Department of Civil Engineering, Hindustan University for her valuable guidance and encouragement in writing the thesis. The author is indebted to **Dr. R.Angeline Prabhavathy**, Head of the Department of Civil Engineering, Hindustan University, for introducing flexibility in schedule and facilitating smooth progress of the project.

The author expresses her thanks to the family members- mother, husband and daughters who paved the way to come to this position and for their prayers, blessings and support.

JESSY MATHAI
