ACKNOWLEDGEMENTS

It gives me an immense pleasure and pride to express my sincere gratitude and respect for my teacher and research supervisor Dr. M. Sridhar, Principal Scientist, Indian Institute of Chemical Technology, Hyderabad for his expert and inspiring guidance. I proclaim my indebtedness to him for his constant encouragement along with the useful suggestions and constructive criticisms during the entire tenure of this work. I consider myself fortunate in that it would have been impossible to achieve this goal without his support and care.

It is my pleasure to express my profound gratitude to my research co-supervisor Prof. C. Suresh Reddy, Department of Chemistry, Sri Venkateswara University, Tirupati, for his encouragement and fruitful discussions throughout the course of this work.

I prefer my heartiest thanks to Dr. B. Narsaiah, Head, Fluoroorganics Division, IICT for his constant support throughout the period. I take this opportunity to thank Dr. P. Shanthan Rao, Dr. Y. Rambabu, Dr. M. Ravindra Kumbare and Dr. J. Vatsala Rani, for their support and helpful discussions during this period.

It gives me an immense pleasure to acknowledge Prof. K. Seshaiah, Head, Department of Chemistry, Prof. C. Venkata Rao, Chairman BOS and other faculty members of Chemistry Department, Sri Venkateswara University for giving opportunity of my Ph.D. programme in this university.

I express my sincere gratitude to my teachers Balaraju, Y. Swamy, Shobha Devi, Dr. Gangi Reddy, Venu Gopal who have inspired me without which I would not have to come to this stage. It is also an appropriate time to remember all my teachers and professors who at various stages of my educational carrier encouraged me to reach this level and it all is the fruit of their teaching and blessings.

It gives me an immense pleasure to put on record my sincere thanks and acknowledgement for their help and support, of my labmates Narsaiah, Raveendra, Sairam, Ramanaiah, Kondal Reddy, K.Srinivas, Vinod Kumar, Vishnu, Mahesh, Kumara swamy, Chandhra Sekhar, sathaiah, Kurumurthi, Samba, Veeraswamy, Ravi, Sangepu Bhavana Rushi, Jayram Reddy, Satish, A. It is impossible task to mention every individuals name and his/her contribution to my career at IICT. I am also greatly indebted to them personally.

At this juncture of my career when I look back and see I always feel an unseen force guiding me through all difficulties and crisis, a blessing and touch which is always felt by my heart. May be this is the divine soul of my late father Obul Reddy, who might have dreamt that I reach golden heights and sky be the only limit to my success. I wish he would have been alive to see this day. My heart goes to my beloved mother Ramasubbamma, who with all her patience, prayers and faith in the Almighty, waited all these long years to see me reaching this stage. Today I dedicate my thesis to my first teacher and guide, my mother.

On this occasion my heart goes for my brother M. Chakradhar reddy, Sister Uma Devi, brother in-law Rambabu, sister in-law Swathi, sun in-laws Raghavendra, Harshith.
Excellent Technical support and help of Srinivas, Thomas and Samantha and Non-Technical support and help of Neelambram, Praveen, Gopal, yadagri, Jangaiah, Shabeer, Sanjeev and Shashi is sincerely acknowledged and remembered.

I take this opportunity to record my appreciation to spectroscopic and analytical division of IICT.

I thank Indian Institute of Chemical Technology, Hyderabad and Counsil of scientific and industrial Reseach, New Delhi for the award of Research Fellowship.

Finally, I take this opportunity to thank one and all that has directly or indirectly helped me in completing this task.
