ACKNOWLEDGEMENT

The author wishes to express her deep sense of gratitude and indebtedness to her guide Dr. B. Thayumanavan, Professor and Head, Department of Biochemistry, Tamil Nadu Agricultural University, Coimbatore for his able guidance, creative suggestions and constructive criticisms offered during this investigation and in the preparation of the thesis.

The author is thankful to Dr. S. Sadasivam, Director, Centre for Plant Molecular Biology and Dr. S.R. Sree Rangasamy, former Professor and Head, Department of Plant Molecular Biology and Biotechnology for their constant and continued encouragement during the course of this study.

Thanks are due to Dr. L. Gothandapani, Professor and Head, Department of Agricultural Processing and Dr. V.V. Sreenarayanan, Head, College of Agricultural Engineering for their encouragement and the help rendered during this investigation.

The author is thankful to Dr. M. Balasubramanian, Professor, Department of Farm machinery for his continued encouragement in all stages of this investigation.

The author owes her special thanks to Dr. A. Manickam and Dr. M. Jayapragasam, Professors and Mrs. R. Balasaraswathi, Associate Professor, Department of Biochemistry for their valuable suggestions and help rendered during the course of this investigation.

Affectionate thanks are conveyed to Mrs. K. Kalaiselvi and Mrs. C. Kohila Devi, Centre for Plant Molecular Biology for the warm timely help rendered by them.
The author expresses her thanks to Dr. N. Jayaraman, Professor and Head, Department of Millets for the facilities provided for the conduct of field experiments.

She is thankful to Dr. S. Easwaramoorthy, Dr. M. Ganeshkumar, Mr. R. Sendil and Mr. K. Kumar for their kind help.

The author is extremely thankful to Dr. A. Chandrasekar, Central Food Technological Research Institute, Mysore for his valuable suggestions in carrying out the research work and Dr. S.G. Bhat, CFTRI, Mysore for his help in the amino acid analysis.

On a personal note, the author expresses her indebtedness to her family members for their tireless support and love all along the course of this investigation.

She has great pleasure in expressing her thanks to Mr. P. Appa Sivamani, 'Siva' Computers for the neat and excellent typing.

The author is grateful to the Tamil Nadu Agricultural University, Coimbatore for permitting to carry out the work on part-time basis.
