

## LIST OF FIGURE

Figure No.	Content	Page No.
1.1	Salen H <sub>2</sub>	2
1.2	Synthesis of the salen ligand	3
2.1	Rotary evaporator setup	44
2.2	Working of Rotary evaporator setup	44
2.3	Photograph of crystal Cu(II) in single form	56
2.4	Photograph of crystal Ni(II) in single form	56
3.1	Schematic Diagram of Conductivity Meter	64
3.2	Two probe resistivity measurement	67
3.3	Four probe resistivity measurement connection	67
3.4	Schematic diagram of high temperature resistivity measurement setup	70
3.5	Sample holder assembly	72
3.6	Sample holder for high temperature resistivity measurement.	72
3.7	Rotary Table Machine	73
3.8	High Resistance Electrometer	74
3.9	Electrical Conductivity of Salen(Schiffbase)	76
3.10	Electrical Conductivity of Cu(II) Crystal	77
3.11	Electrical Conductivity of Ni(II) Crystal	78
4.1	FTIR spectrometer	89
4.2	IR Spectrum of Schiffbase	93
4.3	IR Spectrum of Cu(II) crystal	94
4.4	IR Spectrum of Ni(II) crystal	95
4.5	UV-VIS-NIR Spectrophotometer	102
4.6	Reflectance spectrum of Cu(II) crystal	107
4.7	Reflectance spectrum of Ni(II) crystal	108

<b>5.1</b>	Photograph of thermal gravimetric analysis	124
<b>5.2</b>	TGA Thermogram of Schiffbase	128
<b>5.3</b>	TGA Thermogram of Ni(II) Crystal	129
<b>5.4</b>	TGA Thermogram of Cu(II) Crystal	130
<b>5.5</b>	Quick Thermal Conductivity Meter	138
<b>5.6</b>	Thermal conductivity of schiffbase	142
<b>5.7</b>	Thermal conductivity of Ni(II) crystal	143
<b>5.8</b>	Thermal conductivity of Cu(II) crystal	144
<b>6.1</b>	C-H-N-S-O Analyzer at SICART, V.V.Nagar, Gujarat	156
