CONTENTS

CHAPTER I  PREFACE

1.1 Introduction 1
1.2 Survey of literature 1
1.3 Scope of the present work 3
1.4 Details of the present work 5
1.5 List of Publications 7
References 10

CHAPTER II  EXPERIMENTAL TECHNIQUES

2.1 Introduction 15
2.2 Physical vapor deposition 15
2.3 Vacuum evaporation 16
2.4 Sample preparation 18
2.5 MSM Structures 20
2.6 Thickness measurement 21
References 23

CHAPTER III  STRUCTURE AND COMPOSITION

3.1 Introduction 24
3.2 X-ray diffraction technique 25
3.3 Electron beam technique 29
3.4 Ion beam technique (RBS) 30
References 33
CHAPTER IV  DIELECTRIC PROPERTIES

4.1 Introduction 34
4.2 General theory of dielectrics 34
4.3 Measurements 40
4.4 Results and discussion 41
References 47

CHAPTER V  ELECTRICAL CONDUCTION STUDIES

5.1 Introduction 49
5.2 Theory 49
5.3 Measurements 61
5.4 Results and discussion 62
References 69

CHAPTER VI  BREAKDOWN STUDIES

6.1 Introduction 71
6.2 Theory 72
6.3 Measurements 75
6.4 Results and discussion 75
References 79

CHAPTER VII  HALL AND THERMEOLECTRIC STUDIES

7.1 Introduction 81
7.2 Theory 82
7.3 Measurements 84
7.4 Results and discussion 85
References 87
