ACKNOWLEDGEMENTS

First of all, I am highly grateful to Almighty who gifted me an honest and pure heart whose invisible presence is partisan for me that produced scintillating power to ploy over the traffic situations, silently during my research period.

The words can never express my feelings of deep gratitude, indebtedness and reverence to my esteemed teacher and research supervisor Dr. Madhu Nagla, Professor, Department of Sociology, M.D. University Rohtak, who has always shown an exemplary keenness and interest in perpetuating my research aptitude. ‘It is my pleasure to acknowledge my indebtedness and deep sense of gratitude to my respected research supervisor, without whose scholarly guidance and encouraging attitude, the work would not have been completed. Her keen interest in the work gave me inspiration and generated confidence to complete the work.’

I would also like to thank Dr. Kanwar Chauhan, Professor and Head, Department of Sociology, M.D. University, Rohtak for providing all possible assistance for completing my study.

I also appreciate the helping hand extended to me in the completion of this work by all members of the teaching and non-teaching staff of Dept. of Sociology, M.D.U. Rohtak.

My grateful thanks to the staff of different libraries like M.D. University, Central Library, Documentation Centre, ICSSR, New Delhi, for their cooperation and for the facilities they gave me for consulting related study material in preparing this thesis.
I am highly indebted to Dr. Brahmdeep Sindhu (Psychiatrist), Senior Medical Officer, General Hospital, Gurgaon for his moral support and help.

It is a unique privilege to express my veneration to my most loving parents Sh. Zile Singh and Smt. Omvati who deserve more than a written acknowledgement through out the process of work and who bestowed their pious blessing, incessant encouragement and financial support for my higher academic pursuits.

I must confess that the completion of this work and even carrying out of this work would have been impossible without the encouragement, moral support and cooperation by my wife Mrs. Manju and my children – Aditi and Aarav. I can never thank them enough to have made my work possible.

I would like to have a special word of appreciation here for the support that I have received from my brothers – Mr. Sajjan Kumar and Vijender Kumar.

My deepest appreciation goes to my friends Dr. Neeraj Sangwan, Dr. Sunila Rathee and Mr. Darshan Yadav for their valuable help and suggestions at every stage of the work.

I shall be failing in my duty if I do not convey my thanks and appreciation to Mr. Rajkumar Pahwa for typing this manuscript so neatly and meticulously.

Above all, I thank almighty God, for showering his blessing upon me.
