ACKNOWLEDGEMENT

I am deeply indebted to Dr. T.N. Ramachandra Rao, Chairman, Discipline of Microbiology, Fermentation Technology and Sanitation, Central Food Technological Research Institute, Mysore, for constant guidance and encouragement throughout the investigation.

My colleagues, Mr. B.S. Shastry (Biochemistry Discipline) and Mr. Jayarama Setty (Protein Technology Discipline) deserve my heart-felt thanks for numerous courtesies and help given most readily whenever needed.

I wish to thank Dr. M.R. Raghavendra Rao, Chairman, Discipline of Biochemistry and Applied Nutrition, CFTRI, Mysore, for advice and helpful discussion during the period of work. Dr. M.S. Narasinga Rao, Chairman, Protein Technology Discipline, CFTRI, helped in the ultracentrifugal analysis and other matters, for which I am most thankful to him.

Finally, I am grateful to the Director, CFTRI, Mysore, for his interest in the work and for permitting me to submit the results in the form of a thesis to the Karnatak University for the award of a doctorate degree.

CFTRI, Mysore.
