ACKNOWLEDGEMENT

It gives me an immense pleasure to express my heartfelt and sincere thanks to Dr. V.C. Chavadi, Professor of Geology (Retd), Karnataka University, Dharwad, my beloved teacher and research guide who endured with me all the time that were devoted for this work. His help, guidance, constant encouragement, scientific freedom, valuable suggestions and critical review of the manuscript have enhanced the quality of the thesis considerably.

I am indebted to Dr. B. K. Wodeyar, Dr. M. S. Mannikeri, Dr. R. S. Hanagodimath and Dr. B. P. Waghmare, Professors and Chairmen, Department of Studies in Geology, Karnataka University, Dharwad for the facilities provided to me during this course.

Sincere and heartfelt thanks to my parents Shri. Basavaraj Baligar and Smt. Suvarna and to my brother Anand and Sushila Akka and Mohan Mama for their moral support, constant encouragement and help throughout the course.

I thank the authorities of Karnataka University and Instrumentation Center for their kind help during my analysis part and thanks to Shri. G.S. Mulgund and Shri. G.M. Patil Dept. of Botany, Karnataka University, Dharwad for timely help.

I am thankful and sincere to Dr. G. S. Pujar, Dr. A. R. Nalawadi, Dr. A. G. Ugarkar and Dr. A. S. Vaidya for their valuable suggestions, encouragement and help.

I thank my colleagues Shri. Raju Budihal, Ajay Sanglikar and Lokesh for their help during this work.
My special thanks to friends Keshav, Veeranna, Hasen, Sudhakar, Sivakumar, Ravi, Avinash, Umesh and Girish for their affection and encouragement.

I also wish to thank the teaching faculty and non-teaching staff of the Department of Geology, Karnataka University, Dharwad for their co-operation throughout the work.

I thank all my friends who have helped me directly or indirectly during this course.

Lastly, my sincere thanks to the friends group of RVC Technologies, Dharwad for their kind help to DTP of work of thesis.

Dharwad
