ACKNOWLEDGEMENT

First of all, my head down to ‘Almighty’ who has blessed me with astonishing opportunity, skill and potential. Apart this, the long cherished dream of mine would not have seen this day of light without the enormous cooperation and colossal support of outstanding and inspiring individuals both from within the university and outside of it, whom I express my sincere gratitude to all of them.

It gives me immense pleasure to express my heart-felt gratitude to Professor A.K.Kalia, Department of Education, Maharshi Dayanand University, Rohtak for having always been extremely benignant and ungrudging in having an unforbidden access to his acumen in the discipline of education. I am particularly indebted to him for the propelling and persuasive guidance, painstaking and untiring involvement with the every line of this study, as also for his valuable suggestions and advice for perpetual modifications and improvements. I can never adequately express my feelings for him as without his able, learned and spontaneous guidance, the present work would not have seen completion.

I am under an obligation to Professor Indira Dhull, Dean, Faculty of Education and Head, Department of Education, Maharshi Dayanand University, Rohtak for lending her treasured, material and purposeful suggestions for devising a befitting framework for the present study and also enriching its substance.

I also owe an unmeasurable and unrequitable debt to Professor Radheyshyam and Professor Sunita Malhotra, Department of Psychology, Maharshi Dayanand University, Rohtak, who provided necessary refinement, sophistication, profundity to work from the viewpoint of research methodology and application of statistical tools for the analysis of collected data.

I am equally thankful to Professor Hemant Lata Sharma, Professor Madhu Gupta and other faculty members of the Department of Education of the University for their Continuous Support and warm cooperation at every stage of the completion of the present research study.
I shall be failing in my duty if I do not acknowledge my benediction to all of the respondents belonging to the sampled Education, Engineering and Management Institutions, who extended their unbounded cooperation in making available information of all nature needed for the accomplishment of this research endeavour.

I do not know how to candour the contribution of my Father-in-Law Chaudhary Kapur Singh, my Mother-in-Law Mrs. Ram Rati, my husband Deepak, my little brat Mansi and my parents Professor Daleep Singh and Dr. Sunita, towards the fulfillment of this project. Had they not taken the entire burden of domestic responsibilities on themselves and provided a loving and disciplined environment, this task would have proved arduous.

I am equally grateful to Mrs. Suman Kalia for bearing the inconveniences caused to her as a consequential to the involvement of her husband Professor A.K. Kalia my supervisor and mentor, for a long time in this research project.

At this movement of pleasure, I am also beholden to my brother Himanshu and my Sister-in-Law Jeannie for their continuous support and encouragement.

Lastly, Sh. Babu Lal deserve the recognition for the dexterous exquisite typing of the thesis.
