Acknowledgement

Begins with the name of GOD who is our creator and sustainer my all praise goes to almighty GOD, the most beneficent and merciful for bestowing and blessing me during the completion of this work.

I consider it my right to communicate profound and overwhelmed instinct of gratitude and indebtedness to my esteemed Supervisor Dr. Anwar Shahzad, Assistant Professor, Plant Biotechnology Laboratory, Department of Botany for his insight sagacity, insinuation of belief, compassion, commiseration, critical suggestions, persuasion and continued interest during the present work. Despite his busy schedule, he gave me liberty to encroach his valuable time.

It is immense pleasure for me to express my thanks to Prof. M. Anis, the Chairman and Head of Plant Biotechnology Laboratory, Department of Botany for his indispensible guidance and providing all necessary and possible facilities required to conduct the experiments. He has been a constant source of strength and inspiration to me throughout the execution of this study.

My special “Vote of Thanks” goes to Prof. Sayeed A. Siddiqui, founder of Plant Tissue Culture & Experimental Embryology Laboratory in our Department for his best wishes from beginning to the completion of this thesis.

I wholeheartedly acknowledge my seniors, Dr. Naseem Ahmad (Young Scientist, DST-Fast-Track), Dr. Iram Siddique (RA-CSIR), Ankjita Varshney and Anushi A. Jahan for their help and support during the crucial stages of my research work.

Continuous encouragement and valuable suggestion I received from my friends, Aastha Sahai (SRF-CSIR), Shahina Parveen (SRF-MANF UGC), Neelu Singh, Kavita Parihar, Nigar Fatima, Ruphi Naaz and Shaheen Parveen. They always stimulated me to work hard.

My colleagues, Taiba Saeed (RA-UPCST) and Arjumend Shaheen (PF-UGC) have striven hard to make the thesis error-free as possible. I am most thankful to both of them for their untiring help and support.

In true sense, it will be unjustified if I would not acknowledge my friend, Pratush Raj Singh (B. Tech. & M.Tech., IIT-Delhi) for boosting my moral, strength and being a source of
never ending inspiration. Without his valuable cooperation at each stride during writing, this task could not have been possible.

My sincere and heartiest thanks go to my Parents, brothers, Sachin & Arjun and nephew, Abhishek whose moral support, inspiration and affection sustained me during this work.

I sincerely acknowledge various authors and publishers both inside and outside the country, to whom I have referred to in the text. Thus, my sincere gratitude goes to many personalities who inspired me to shape this thesis.

Finally, financial support in the form of Research Fellowship in Science under the scheme of UGC, New Delhi for Meritorious student is greatly acknowledged.
