CHAPTER I - INTRODUCTION 1 - 34
1. Alcoholism ........................................ 1
2. Alcoholism in the Past ............................ 2
3. Prevalence of Alcohol Consumption - Indian Scenario ............... 3
4. Alcoholism - The Disease Concept .................. 5
5. Characteristics of Alcoholism ........................ 6
6. Risk Factors ......................................... 7
7. Classification of Alcoholism .......................... 7
8. Stages of Alcoholism ................................ 7
9. Etiology of Alcoholism ................................ 9
10. Alcohol Related Problems ............................ 11
11. Conceptual Framework ................................ 15
12. Alcoholism – A Family Disease ..................... 17
   • Types of Alcoholic Families ...................... 17
   • Rules of the Alcoholic Family ................... 19
   • Alcoholic Family and Healthy Family – A Comparison .......... 20
   • Impact of Alcoholism in the Family ................. 22
   • Co-Dependency .................................... 25
   • Roles Taken Up by the Spouse .................... 26
13. Children of Alcoholics- (ACOAs) .................... 27
14. Treatment ........................................... 31
15. Prohibition Steps Taken by the Government ...................... 33
16. Conclusion .......................................... 34

CHAPTER II - REVIEW OF LITERATURE 35 - 67
1. Introduction ........................................ 35
2. Studies Related to Alcoholism ...................... 36
   • Causes of Alcoholism .............................. 36
CHAPTER III – RESEARCH METHODOLOGY

1. Introduction ........................................... 68
2. Statement of the Problem .......................... 68
3. Significance of the Study ......................... 69
4. Scope of the Study .................................. 71
5. Aim of the Study ..................................... 71
6. Objectives ............................................. 72
7. Hypothesis ............................................. 73
8. Definition of Concepts .............................. 73
9. Research Design ...................................... 76
10. Universe and Sampling ............................ 77
11. Tools for Data Collection ......................... 79
12. Pilot Study .......................................... 88
13. Pre-test .............................................. 89
14. Data Collection Procedure ....................... 89
15. Analysis of Data .................................... 90
16. Difficulties Faced by the Researcher .......... 91
17. Limitations of the Study ......................... 91
18. Chapterisation ....................................... 92

CHAPTER IV – ANALYSIS AND INTERPRETATION

1. Socio-Demographic Background of the Respondents .................. 93
2. Perception of Husbands’ Drinking .......................... 98
3. Conflict Tactics ....................................... 104
4. Proactive Coping ..................................... 132
5. Family Interaction Pattern .................. 166
6. Marital Quality .................. 198
7. Perceive Quality of Life .................. 240
8. Intercorrelation among the Subject Variables .................. 262

CHAPTER V – FINDINGS, IMPLICATIONS, SUGGESTIONS 264 - 305
AND SUMMARY
1. Major Findings .................. 264
2. Implications for Social Work Intervention .................. 294
3. Suggestions .................. 298
4. Conclusion .................. 304
5. Summary .................. 305

BIBLIOGRAPHY

APPENDIX
3. Alcohol Use Disorders Identification Test: (AUDIT)
5. Proactive Coping Inventory (PCI) by Esther Green Glass, Ralf and Steffen (1999)
6. Family Interaction Pattern Scale (FIPS) by Dr. Bhatti et al., (1986)
8. Perceived Quality of Life scale (PQoL) by Dr. Donald Patrick and Dr. Marion Danis (1988).
