1.0 INTRODUCTION 1

2.0 REVIEW OF LITERATURE 6
   2.1 Aim and Scope of Present Study 14

3.0 MATERIALS AND METHODS 16
   3.1.0 Description of the select Pest 16
   3.2 Collection and Maintenance of Insects 20
   3.3 Place of the Study 21
   3.4 Choice of plants 22
   3.5 Extraction and Purification of Plant Fractions 29
   3.6 Mode of Administration 30
      3.6.1 Oral administration 30
      3.6.2 Topical treatment 30
   3.7 Bioassay Tests 31
      3.7.1 Estimation of mortality 31
      3.7.2 Estimation of antifeedant activity 31
      3.7.3 Estimation of ovicidal activity 32
      3.7.4 Estimation of oviposition deterrence activity 33
   3.8 Plan of the study 34
   3.9 Statistical Analysis 35
4.0. RESULTS

4.1. Insecticidal activity

4.1.1. Oral treatment

4.1.2. Topical treatment

4.2. Antifeedant activity

4.3. Ovicidal activity

4.4. Oviposition deterrence activity

5.0. DISCUSSION

5.1. Insecticidal activity

5.1.1. Oral Application

5.1.2. Topical Application

5.2. Antifeedant activity

5.3. Ovicidal activity

5.4. Oviposition Deterrence Activity

6.0. SUMMARY & CONCLUSION

7.0. BIBLIOGRAPHY
