ACKNOWLEDGEMENTS

A word of thanks will not suffice for the contribution of my beloved Professor Dr. M. VIVEKANANDAN, who has been primarily instrumental in completing this thesis. His eloquence in the subject, guidance, motivation and ability to perceive problems was a constant inspiration for me throughout the period of my research. His attention to details, vast reservoir of knowledge, methodical supervision, sharp acumen, astute observation and ability to look beyond the immediate has helped me a lot. I take this opportunity to express my heartfelt thanks to my respected professor.

It is a pleasure to record my gratitude to Dr. S. SHANMUGA SUNDARAM, Director, Blue-green algal centre, Madurai Kamaraj University, Madurai for allowing me to make use of the gas chromatography facility to perform the Acetylene Reduction Assay.

I am indebted to the University Grants Commission for awarding the teacher fellowship with financial assistance to complete my thesis successfully.

I owe much to many and it is a pleasure to record my gratitude to my beloved principal Prof. K. ABDULLAH BASHA, for his timely help to permitting me to avail the Faculty Improvement Programme (FIP).

With deep sense of gratitude, I place on record of my sincere thanks to Prof. A. KALIB, Selection Grade Lecturer in Botany, Jamal Mohamed College, Tiruchirappalli, for his whole hearted support and co-operation during my research.
I am thankful to Dr. A. GANAPATHY and Dr. M. KRISHNAN, Readers in Biotechnology, Bharathidasan University, for permitting me to make use of Nikon Photographic Unit.

I place on record my sincere thanks to Mrs. M. DEVATHA, Selection Grade Lecturer, E.V.R. College, Tiruchirappalli for her keen interest, whole hearted co-operation in the preparation of this thesis.

I am very fortunate to work in the department of Biotechnology, Bharathidasan University, with my colleagues namely Dr. R. SURESH BABU, Dr. A.BINDU ROY, Mr. J.KANDA KUMAR, Mr. M.J. HAMEED, Mr. A. SARAVANAN and Mr. V. SAKTHIVEL, owe a lot for providing excellent working atmosphere.

I am thankful to Mr. MANIKAVASAGAM and Mr. PREM ANAND for their keen help in taking Microphotographs.

I am particularly grateful to Mrs. R. CHITRA, G. SUBATRA and Mr. P. RANGASWAMY, for helping me with the office work and field experiments.

I thank Mr. MOHIDEEN BATCHA, Mr. RAMESH ANBALAGAN and Mrs. GIRIJA, for their constant support during my research.

Finally I thank my colleagues in the department of Botany, Jamal Mohamed College, for their motivation and encouragement.

M. GHOUSE BASHA.
