Acknowledgement

My debts are great too many, especially like the debt at God, which I cannot even dare to acknowledge, and who bestowed on me the courage to carry out this research work.

It is a golden opportunity and proud privilege to work under the talented and inspiring guidance of Dr. Meenakshi Singh, Coordinator, Institute of Home Science, Bundelkhand University. Her untiring supervision, persistent encouragement, unending zeal, conspicuous ability and constructive criticism has always been a source of my achievement. I am extremely indebted to her for being meticulous throughout the investigation and preparation of this manuscript.

I would like thanks to Dr. Pratibha Arya Lecturer (Food & Nutrition) Institute of Home Science and Mrs. Anjali Saxena, Lecturer (Statistics), Bundelkhand University Jhansi, for not only helping me but also took keen interest throughout the course of investigation. Had they not taken painstaking efforts and inspiring attitude, the research work would have not been accomplished.

I would like to offer my warmest and deepest thanks Dr. Neelma Kunwar, Associate Professor, Department of Extension Education and Communication Management, C.S.A., University, Kanpur and Dr. Mukta Garg, HOD (Child Development), C.S.A., University, Kanpur.

From the core of my heart, uncountable words of cordial veneration and gratitude are for my friend Pragya Trivedi for their kind cooperation, unforgettable smile and affection.

Last but not least I have the proud privilege of mentioning my best regards for my Late Grand Father and all family member for their inspiring sentiments tender love and constant support to me throughout the my thesis work and who have similarly embraced the obvious suffering during the course of study.

(Jyoti Prabha Pandey)
