ACKNOWLEDGEMENT

Primarily, I would like to give glory to the God Almighty for His Grace and help in all my endeavors and for bringing me this far in my educational career.

Just as in many ways a man is the sum of his innumerable ancestors, so is he professionally the synthesis of his teacher. It is out of all the formal eulogium that I wish to express my deep sense of gratitude to my learned and revered mentor Dr. P.K. Pandey, Department of Biotechnology, Bundelkhand University, Jhansi (U.P) for his able guidance, constructive counsel, untiring help and constant inspiration throughout the study that paved the way for successful completion of this endeavor. I do not have appropriate words in the vocabulary to express my deep sense of ever indebtedness to him.

It gives me great pleasure to express my deep gratitude to Dr. Praveen Rishi, Associate Professor, Microbiology Department, Punjab University, Chandigarh for the pursuance and successful completion of my research work and thesis work.

I am deeply grateful to Dr. S. M. Srivastava, Head, Research & Development Division, Venus Medicine Research Center, Baddi (H.P) for the pursuance and successful completion of my research work and thesis work.

I am sincerely indebted to Mrs. Manu Chaudhary, Deputy Managing Director, Venus Medicine Research Center, Baddi (H.P) for providing me all facilities and rendering her valuable suggestions.

I am deeply grateful to Dr. Vivek Kumar Dwivedi and Dr. Arvind Soni, Bio-Chemical Lab, Venus Medicine Research Center for giving me support to carry out this work.

I express my regards to Dr. Anju Singh whose academic guidance and inspiration during my studentship have enabled me to reach so far from where I am able to see the long arduous path of higher knowledge more clearly.

I sincerely thank Dr. R. K. Jain, International Testing Laboratory Panchkula, (HP) for his valuable suggestions.

I am thankful to Dr. Lallu Varughese and his wife Dr. Jyoti Lallu for their priceless support during work.

I am thankful to Mrs. Sweta Rai, Mr. Sandeep Saurabh and Ms. Sugandha Kshurana for their assistance in experimental work.
I am thankful to Mr. Jitender Sherawat for their help in the collection of biopsy sample for isolation of bacterial culture needed in this research work.

I positively take happiness in companionship of Mr. R. S. Negi and Mr. P.S. Reddy who bestow me honest support and serenity without which I could never pursue my work.

I would like to acknowledge the invaluable help and co-operation of my Lab attendant Ram dheni whose help and support throughout this study was valuable.

I especially thank my elder brother Mr. G. S. Rai and Mr. B.S. Rai and my younger brother Mr. V. Rai and Mr. C.V. Rai for their support, love and affection, throughout my research work.

All my efforts would have remained incomplete without the blessings of my Father and Mother who not only inspired me but also provided me moral support and patience without which I could never pursue my studies.

I am grateful to all family members and relatives for their kind help and full co-operation rendered at various stages of this work.

(Dharmendra Rai)
