ACKNOWLEDGEMENTS

First and foremost thanks to ALMIGHTY for giving me an opportunity to express my thankful feelings to all my near and dear ones. My head bows in obeisance and shall always remain indebted to "LORD" for magnanimous blessings and bestowed courage and patience to me.

I would like to express my deepest sincere gratitude to my esteemed supervisor, Dr. (Mrs.) S. Chauhan, Department of Chemistry, H.P.U., Shimla for her continuous guidance, invaluable suggestions, affectionate encouragement and all possible help. Her sympathetic nature is additional source of encouragement during the entire period of execution of this work.

I am also extremely indebted to Prof. M. S. Chauhan, Department of Chemistry, H.P.U., Shimla for her generous help, cooperation, important acumen, pellucid suggestions and eminent guidance throughout the course of study.

I acknowledge my sincere thanks to former Chairman Prof. D. K. Sharma, present Chairman Prof. S. K. Lomesh, and the faculty, Department of Chemistry, H.P.U., Shimla for their kind co-operation and providing necessary infrastructure facilities throughout my research work. I would also like to thank Prof. V. K Syal (Retd.) for his kind suggestions.

My greatest and immeasurable indebtedness goes to my loving and affectionate parents, Sh. R. S. Kaushal and Smt. Swarn Kanta, without whom, I could not imagine any success in my life. Their benign blessings have been a driving force behind all my achievements. I have the feeling and not the words to express my gratitude for their good wishes, prayers, advice, moral support, encouragement, ever growing love and sweet affection.

Literary words cannot depict the depth of immense gratefulfulness and respect that I feel for my loving sisters Shalu Di and Gitu Di and my Jiju whose love, care, advice and support I received in abundance. I want to place on my record my heart - felt thanks to all my Relatives for their best wishes and love and affection to my lovely nephews and nieces Vishi, Khushi, Aadi and Aanya.

I gratefully acknowledge my huge and sincere thanks to my senior post doctoral fellow Dr. Dilbag Rana, who willingly devoted so much time in giving guidance to me and for his constant support, co-operation, friendly company and helpful suggestions in formatting the entire thesis.
I am extremely thankful to my lab fellows and friends Ramesh, Minakshi, Ram Singh, Kundan, Kuldeep and all new Juniors and my research colleagues for their help, nice cooperation in various ways and providing me friendly environment throughout my research work.

No expressions of appreciation will be sufficient without recognition of my special seniors and friends Rajni mam and JJ mam for their best wishes, love, constant encouragement and moral support that virtually helped me to complete this work. Their warm and loving wishes stood by my side always, and the pleasant time we spent together will always rememberable to me.

There aren't words enough to express my gratified feelings to my loving friend Panky for her benevolent support, love and heart whelming care and for the pleasant company and fun memories not only in lab but also in hostel. Her constant encouragement and moral support during the tough time inspired me to complete this work.

It's my fortune to gratefully acknowledge the support of some special individuals. Words fail me to express my appreciation to my dearmost friends Manish, Dimpal, Shilpa and Priyanka for always beside me during the happy and hard moments to push me and motivate me throughout my work. I cannot but appreciate the loyal support extended particularly to Jyoti Di, Bhawna and Ritu mam who always encouraged me with their love and care during the time of need.

I would also like to extend my huge and warm thanks to Anshuma, Ankita, Sonia, Rishi, Sunil, Vikas, Kamal, Saloni, Vishal, Anil Sir and Kushal for their care, and tremendous support.

My special thanks are due to my College, University and Hostel friends for their love and constant support in various ways.

I gratefully acknowledge UGC-SAP for sanctioning instrumentation grant for Chemistry Department, H.P.U. and also for rendering financial assistance as junior research fellow (JRF) in the form of major research project and CSIR for awarding Senior Research fellowship (SRF).

DATED:  20.2.2013

DEEPIKA KAUSHAL
(M.Sc., M.Phil.)
