Acknowledgements

I am indebted to my honorable guide Dr. K. Nishteswar, Professor and vice-principal, Dr.N.R.S. Government Ayurvedic College, Vijayawada; for his guidance and constant encouragement throughout my study. Without his timely advice and meticulous correction has made this thesis would not have been possible.

I take pleasure to convey my gratitude to Prof. B. Syama Sundar, Coordinator, Department of Biochemistry, Acharya Nagarjuna University and also my gratitude to other faculty members Dr. P. Kiranmayi, Dr. J. Rajeswari and Ms. K. Suneetha for their encouragement and timely help during my study.

My sincere thanks are due to Prof. V. Seshayamma, Principal and Head, Department of Pharmacology, Alluri Sita Ramaraju Academy of Medical Sciences, Eluru, for permitting me to carry out my experimental work in the Animal House of the institute.

Prof. D. Siva Prasad Department of Biochemistry, Andhra University is thanked for his help rendered during my work.
My regards to K. Siva Prasad, Assistant professor in Department of Biochemistry of Alluri Sita Ramaraju Academy of Medical Sciences, Eluru, for his continuous support and guidance provided throughout my research work.

I am thankful to Technicians of Alluri Sitaramaraju Academy of Medical Sciences, Eluru, for their untiring support during my lab work at their institute.

I am grateful to chiranjeevi Jayaram, for his guidance and Y.Phani kumari of Sir CRR College for Women for her assistance during my work.

I am indebted to the almighty without whose blessings this work will be impossible.

Last but not the least; I thank my family members who have been the pillar of strength all throughout my study.
