ACKNOWLEDGEMENTS

Anyone can give up; it's the easiest thing in the world to do. But to hold it together when everyone else would think you will fall, that's true strength. The foremost and sincerest thanks are due to 'God Almighty' who bestowed me with his blessings, endowed me with strength and fortitude and directed me aright.

Foremost, I would like to express my profound gratitude to my Ph.D. supervisor, Dr. Praveen Verma for his kind guidance, patience, motivation and enthusiasm throughout this Ph.D. program. His far-sightedness, unwavering support, and giving enough independence to nurture my scientific temper has been instrumental in completion of this work. I specially appreciate his patience, care and faith in me in the time of thesis writing. I could not have imagined having a better advisor and mentor for my Ph.D. study. Sir, thank you very much for everything you did for me.

I express my sincere gratitude towards Prof. Akhilesh Tyagi, Director, NIPGR and Prof. Asis Datta, founder Director, NIPGR, for providing an excellent infrastructure and state-of-the-art research facility conducive to good research at the institute.

I am highly thankful to all the faculty members at NIPGR, Prof. Sushil Kumar, Drs. Sudip Chattopadhyay, Debasis Chattopadhyay, Sabhyata Bhatia, Alok Sinha, Manoj Prasad, Niranjan Chakraborty, Shubhra Chakraborty, and Gitanjali Yadav for imparting scientific knowledge during course work.

I would also like to thank Dr. K. D. Srivastava and Dr. Sunil Chandra Dube of IARI, New Delhi for providing strain of Ascochyta rabiei. Special mention and thanks goes to Dr. Agam P. Singh of NII, New Delhi, for the significant contribution in executing some of the experiments.

I would also acknowledge all the staff members of NIPGR specially Mr. Sandeep Datta, Mr. Sudhir, Mr Chavan, Mr. Tapas, Ms. Rajni and Ms. Vineeta for their kind and ready to help nature in fulfilling official formalities. Special mention to Dr. Vinod Kumar Sharma for his invaluable service to the library, Mr. Arun Kumar for maintaining the sequencing facility, the technical staff of the CIF, Ashok ji, Shobharam ji and Surendra ji for their cooperation.

I consider myself fortunate for being blessed with friendly and cheerful seniors in lab Drs Shalini di, Poornima Jaiswal, Kamal Kumar, Archana Singh, Ishan Kalita, Sourabh Yadav who took great care of mine and provided a stimulating and fun environment to learn, grow and enjoy. I thank all of them for generous help and the great time we shared in and outside the lab.

I also thank my lab colleagues, Dr Nazrool, Shadab, Sandhya, Manmohan, Pragati, Vandana, Savitri and Neelam for their wonderful company. I am also grateful to them for giving insightful suggestions during lab meetings and interaction. I would acknowledge my trainee, Suman who worked with me and took a burden off my shoulder. I am also thankful to Govindji for his untiring services.

I owe special thanks to my junior Ms Manisha who worked with me and took burden off my shoulders. Her sharp intelligence and industrious nature eased my way to accomplish this task.
I also thank her for going through the thesis draft several times and for valuable suggestions for the improvement. In spite of being younger to me she has taken care of mine like an elder sister. I wish her all the very best in life.

I am grateful to my Ph.D. batchmate, Neeraj, Rajiv, Ayushi, Nazia and Pyniar. I am particularly grateful to Dhammaprakash for his delightful company and timely help in eleventh hour of thesis completion.

I take this opportunity to thank all my seniors in the institute for their helpfulness and feel proud to mention their names: Drs. Arnob Da, Kundu Da, Niraj Sir, Vijay Sir, Bhumika Di, Nagu Sir, Lalit agarwal, Ritu Kushwaha, Raghu Sir, Vineeta, Ramaiah, Vinay, Prabhakr, Kundan, Raina, Deepti, Hanumant Rao, Nagaraju, Sumit, Babu. I am further elated to thank all well-wishers and juniors: At the time of binding of this thesis time constrain did not allowed me to write their name, as I would have felt bad missing anyone.

I sincerely acknowledge three people whose contributions are immense during my PhD life time namely Drs Rakesh Shukla, Aparna Singh and Bhawana Saxena for their unflagging emotional support and care.

My deepest gratitude is towards my virtuous parents for unflagging love and support throughout my life. I am immensely grateful to my Pitaji, Shri R. K Singh and Maa Smt Renu Singh for their care, love and far-sightedness. They spared no effort to provide the best possible environment for me to grow up. In doing so They came across all the hardships but had never complained. I have no suitable word that can fully describe my everlasting love and gratitude towards them. Mom and Dad this thesis would have never been a reality without your support.

I am extremely grateful to my brothers, Bholu and Raja for their love, care and support all the time. In order to complete my higher studies both of my brothers happily allowed me to shun many of the familial responsibilities.

I gratefully acknowledge the financial assistance by CSIR and lately by NIPGR in the forms of Junior and Senior Research fellowships.

Finally I would like to thank everybody who directly or indirectly was important to the successful realization of thesis, as well as expressing my apology that I could not mention them personally by name.

Kunal Singhi
