

List of Publications

1. Development of new spectrophotometric methods for the determination of Alfuzosin hydrochloride in bulk and pharmaceutical formulations, **Oreintal Journal of chemistry**, vol (24), 2, 2008.
2. Novel spectroscopic methods for the determination of phenolic β -lactam antibiotic (Cefprozil) in bulk and dosage forms, **Oriental journal of chemistry**, vol (24), 2, 2008.
3. Determination of Mirtazapine in tablet dosage forms by visible spectrophotometry, **Biosciences and Biotechnology Research Asia**, vol (5), 2, 2008.
4. Visible spectrophotometric methods for the quantitative estimation of Eplerenone in their formulations, **Material Science Research India**, vol (5), 2, 2008.
5. Quantitative analysis of Gemcitabine in commercial dosage forms by UV-Visible spectrophotometry, **Oreintal journal of chemistry**, vol (24), 3, 2008. (Supporting paper)
6. Validated spectrophotometric *determination of Tadalafil in Pharmaceutical formulations*, **Oreintal journal of chemistry**, vol (24), 3, 2008.(accepted for publication) (Supporting paper)
