ACKNOWLEDGEMENT

First of all, I thank God Almighty for His Blessings and Guidance throughout my research work.

I consider myself extremely fortunate to have worked under Dr. M.S. Ramachandran, Professor, School of Chemistry, my supervising teacher. With immense pleasure and respect, I express my deep sense of gratitude and indebtedness to him for his dynamic and inspiring guidance. His sincere and compassionate advice, patient and insightful discussions and suggestions, profound help in the interpretation of results and the keen interest with which he has followed the progress of the work are largely responsible for what is reported herein.

I wish to record my sincere thanks to Prof. K. Pitchumani, Chairperson, Prof. S. Rajagopal, Head, Department of Physical Chemistry and Prof. S. Vaidyanathan and Prof. PR. Athappan, former Head and Coordinators, School of Chemistry for their valuable help rendered to me in providing the laboratory facilities. I am also thankful to all other faculty members for their inspiration and benevolent attitude during my research work.

It is indeed a great pleasure for me to express my deep sense of gratitude and appreciation to Dr. D. Eswaramoorthy, Asst. Professor, Department of Chemistry, Crescent Engineering College, Chennai, for his
inspiration, advice, encouragement for the successful completion of this thesis. I am happy to acknowledge the warm companionship and constant help of my friend P. Muthu Mareeswaran, Scholar, School of Chemistry, Madurai Kamaraj University, Madurai.

I always feel fortunate to have friends like Mr. C. A. Pradeep, lecturer, The American College, Madurai, Dr.A.Ramasubbu, Dr.Sayeekannan and Mr. M. Murugavelu. They are the constant source of encouragement and inspiration and have helped me immensely during this investigation.

I acknowledge with pleasure Dr.U.V.Varadaraju, Professor, MSRC, IIT, Chennai and M. Sundar for their timely help in collecting references.

I extend my thanks to the authorities of IIT, Chennai and CECRI, Karaikudi for providing library facilities.

I take this opportunity to record my profound source of gratitude and thanks to Prof.P.K.Noordheen, former Principal and Mr.O.P.Abdurahiman, Principal, M.E.S. Mampad College, for their constant help and encouragement during the tenure of this work.

The award of FIP Fellowship by the UGC and the University of Calicut, the permission for undergoing Ph.D. course by the management of M.E.S. Mampad College and the Directorate of Collegiate Education, Government of Kerala and granting of the opportunity to carry out this research work successfully by Madurai Kamaraj University are gratefully acknowledged.
I owe my sincere gratitude to office staff, technical staff and library staff of School of Chemistry and office staff of research section of Madurai Kamaraj University for their help and cooperation.

I am also thankful to my colleagues of M.E.S Mampad College for their timely help for completing the research work.

This thesis would not have seen the light of the day without the moral support, love, affection and help showered on me by my wife and children. So it will be incomplete if I do not thank them.

SHAJI, K.
