ACKNOWLEDGEMENTS

The author deems his bounden duty to remember late Dr S.N. BARUA, INSTITUTE OF ARMAMENT TECHNOLOGY PUNE, who inspired him to undertake the research work.

It needs hardly any mention that the author is highly indebted to Prof P.C. RATH, Guiding teacher and Head of the faculty of Mathematics and Ballistics, INSTITUTE OF ARMAMENT TECHNOLOGY, who has constantly taken utmost care in suggesting and progressing this work. I express my sincere gratitude to him.

The author takes this opportunity to express his deep obligation to Prof V.V. NARLIKAR and Dr V.S. HAZURBAZAR, UNIVERSITY OF POONA for their co-operation in every academic support. The author considers it a great honour to have the kind permission of Brig. PRITAM PAL SINGH, AVSM, Dean, INSTITUTE OF ARMAMENT TECHNOLOGY and the UNIVERSITY OF POONA to submit this work for the award of the degree.

The author acknowledges the library services at INSTITUTE OF ARMAMENT TECHNOLOGY, which have been prompt and highly beneficial.

A word of appreciation is also due to Mrs PN DHANLAXMI and Miss ANNIE GEORGE for helping the author in numerical work and Shri KJ KOMDRA for his excellence in typing the manuscript.
