CHAPTER – I

1 - 60

INTRODUCTION ON THE IMPORTANCE OF QUALITY ASSURANCE AND ANALYTICAL UTILITY OF CHROMOGENIC REAGENTS USED FOR THE ASSAY OF SELECTED DRUGS.

Part – A

1.01 General introduction

1.02 Objective the present work

1.03. A .Chemistry of chromogenic reagents in analytical assay of selected drugs.

1.03. B. General methodology for the development of new visible spectrophotometric methods.

Part – B

1.04. Introduction on High performance liquid chromatography (HPLC)

1.04. A. Components of HPLC equipment

1.04. B.Criteria for chromatographic method development

1.04. C. Validation of HPLC methods:

CHAPTER – II

61 - 140

NEW ANALYTICAL METHODS FOR THE DETERMINATION OF PIOGLITAZONE HYDROCHLORIDE IN BULK AND DOSAGE FORMS USING VISIBLE SPECTROPHOTOMETRY AND HPLC.

- 2.01 Drug profile**
- 2.02 Experimental**
- 2.03 Proposed methods**
- 2.04 Results and Discussion**
- 2.05 Conclusions**
- 2.06 Nature of the color species**

CHAPTER – III

141 - 200

ASSAY OF GLIMEPIRIDE IN BULK AND DOSAGE FORMS BY VISIBLE SPECTROSCOPY AND HPLC.

- 3.01 Drug profile**
- 3.02 Experimental**
- 3.03 Proposed methods**
- 3.04 Results and Discussion**
- 3.05 Conclusions**
- 3.06 Nature of the color species**

CHAPTER – IV

201 - 231

NEW SPECTROSCOPIC METHODS FOR THE ASSAY OF RIVASTIGIMINE USING VARIOUS CHROMOGENIC REAGENTS.

- 4.01 Drug profile**
- 4.02 Experimental**
- 4.03 Proposed methods**
- 4.04 Results and Discussion**
- 4.05 Conclusions**
- 4.06 Nature of the color species**

CHAPTER – V

232 - 275

EVALUATION OF VARIOUS CHROMOGENIC REAGENTS IN SPECTROPHOTOMETRIC ANALYSIS OF BICALUTAMIDE.

- 5.01 Drug profile**
- 5.02 Experimental**
- 5.03 Proposed methods**
- 5.04 Results and Discussion**
- 5.05 Conclusions**
- 5.06 Nature of the color species**
