ACKNOWLEDGEMENT

Successful completion of a task rests upon a complex interaction of various factors of these inspirations and cooperation assumes paramount importance. Therefore, I feel that it is my utmost duty to express my heart- felt thanks to all those who have directly and indirectly given their valuable contribution with their blessing and cooperation to complete this task of mine.

At the very first instance, I take the redeemed opportunity to surrender myself at the feet of God who gave me infinite power, inspiration and efficiency to complete my task. At the very outset I bow to “The Supreme Father” for showering his blessing and grace on me.

Truthfully, I have dearth of words to reveal my gratitude and indebtedness to my virtuous supervisor Prof. Ravi Sidhu, Head, Department of Home Science, Dayalbagh Educational Institute (Deemed University), Agra for her erudite guidance and unstinted support. I owe heart-felt gratefulness to my experienced, scholarly and consummate guide who has been ever welcoming and provided reliable and sympathetic guidance for me throughout the study. She has been a motivating factor, guiding pillar and source of inspiration for me throughout the process of my research work. The present work could not have been possible without her worthy suggestions, able guidance and constant co-operation and support. I take this opportunity to express my sincere thanks and deep sense of gratitude to my co-supervisor Prof. G. P. Satsangi, Agricultural Operations, Faculty of Science, Dayalbagh Educational Institute (Deemed University) Dayalbagh, Agra for his worthy and expert guidance. His knowledge and profound analytic insight oriented me toward this research. I appreciate the creative and stimulating guidance, constructive criticism, resourceful ideas, encouraging remarks and affectionate patronage of both my supervisors.

I also undertake the privilege to express my thankfulness to Prof. P.K. Kalra, Director, DEI and Prof. Urmila Anand, Dean, Faculty of Arts, DEI for their kind support, motivations and guidance throughout the period of research.
I also express my sincere appreciation to Prof. Gul Mathur and Associate Prof. Dr. Sangita Saini for their significant cooperation and invaluable advice and suggestions at different junctures as and when desired. I would fail in my duties if I do not mention the support and suggestions of my colleagues Dr Seema Kashyap, Dr Richa Verma, Dr Charu Swami, Dr Nandini Johri and the other members of the staff in Home Science Department ie Mrs R. Manchanda and Mrs P. Sinha, for their kind cooperation.

I also extend my special thanks to Dr. D. N. Pandey, Ex. Prof. in Statistics S. N. Medical College, Agra for the valuable suggestions and help rendered by him. The valuable suggestions given by him paved a right direction for my research work. So too, I am indebted to all my friends, colleagues for their appreciable and significant cooperation during the course of my PhD work.

I am thankful to my husband Mr. Jitendra Kumar for his continued motivation and inspiration for which he took every pain to boost up my morale and he also sacrificed much to see my work completed. Thanks to him for the technical assistance on computer work and tabulation. It would have been impossible on my part to complete this gigantic work without his help and encouragement. I offer loving thanks to my child, Ayush Gautam, for adjusting to my busy schedule and cooperating with me throughout the study. I am also indebted to my in-laws who supported me during my study period. The affectionate help, sacrifice, encouragement, blessing and full cooperation of my family members played a significant role in accomplishing this task of mine. I express my gratitude to my parents Shri. Anil Kumar Gautam & Smt. Maya Gautam and brothers Mr. Rahul Gautam & Dr. Harshul Gautam for the motivation and inspiration provided to me even when they were miles away.

I offer my grateful thanks to many others whose names could not be individually acknowledged here, who have helped me in completing this work.

Dt : 05.03.2014                                                                                 Madhulika Gautam
