</table>
attitude towards cheating and creativity work value upon

time spent on personality development activities (in minutes)

5.2 (c) Effect of creativity work value and interaction effect of

attitude towards cheating and creativity work value upon

time spent on entertainment related activities (in minutes)

5.3 (a) Effect of challenge (CH) work value and interaction effect of

attitude towards cheating and challenge work value upon

time spent on essential routine activities (in minutes)

5.3 (b) Effect of challenge work value and interaction effect of

attitude towards cheating and challenge work value upon

time spent on personality development activities (in minutes)

5.3 (c) Effect of challenge work value and interaction effect of

attitude towards cheating and challenge work value upon

time spent on entertainment related activities (in minutes)

5.4 (a) Effect of money (MO) work value and interaction effect of

attitude towards cheating and money work value upon time spent on

essential routine activities (in minutes)

5.4 (b) Effect of money work value and interaction effect of

attitude towards cheating and money work value upon time spent on

personality development activities (in minutes)

5.4 (c) Effect of money work value and interaction effect of

attitude towards cheating and money work value upon time spent on

entertainment related activities (in minutes)

5.5 (a) Effect of self expression (SE) work value and interaction effect of

attitude towards cheating and self expression work value upon

time spent on essential routine activities (in minutes)

5.5 (b) Effect of self expression work value and interaction effect of

attitude towards cheating and self expression work value upon
time spent on personality development activities (in minutes)
5.5 (c) Effect of self expression work value and interaction effect of
attitude towards cheating and self expression work value upon
time spent on entertainment related activities (in minutes)
5.6 (a) Effect of service to others (SO) work value and interaction effect of
attitude towards cheating and service to others work value upon
time spent on essential routine activities (in minutes)
5.6 (b) Effect of service to others work value and interaction effect of
attitude towards cheating and service to others work value upon
time spent on personality development activities (in minutes)
5.6 (c) Effect of service to others work value and interaction effect of
attitude towards cheating and service to others work value upon
time spent on entertainment related activities (in minutes)
5.7 (a) Effect of power (PO) work value and interaction effect of
attitude towards cheating and power work value upon
time spent on essential routine activities (in minutes)
5.7 (b) Effect of power work value and interaction effect of
attitude towards cheating and power work value upon
time spent on personality development activities (in minutes)
5.7 (c) Effect of power work value and interaction effect of
attitude towards cheating and power work value upon
time spent on entertainment related activities (in minutes)
5.8 (a) Effect of achievement (ACH) work value and interaction effect of
attitude towards cheating and achievement work value upon
time spent on essential routine activities (in minutes)
5.8 (b) Effect of achievement work value and interaction effect of
attitude towards cheating and achievement work value upon
time spent on personality development activities (in minutes)
5.8 (c) Effect of achievement work value and interaction effect of attitude towards cheating and achievement work value upon time spent on entertainment related activities (in minutes)
5.9 (a) Effect of recognition (REC) work value and interaction effect of attitude towards cheating and recognition work value upon time spent on essential routine activities (in minutes)
5.9 (b) Effect of recognition work value and interaction effect of attitude towards cheating and recognition work value upon time spent on personality development activities (in minutes)
5.9 (c) Effect of recognition work value and interaction effect of attitude towards cheating and recognition work value upon time spent on entertainment related activities (in minutes)
5.10 (a) Effect of interpersonal relation (IR) work value and interaction effect of attitude towards cheating and interpersonal relation work value upon time spent on essential routine activities (in minutes)
5.10 (b) Effect of interpersonal relation work value and interaction effect of attitude towards cheating and interpersonal relation work value upon time spent on personality development activities (in minutes)
5.10 (c) Effect of interpersonal relation work value and interaction effect of attitude towards cheating and interpersonal relation work value upon time spent on entertainment related activities (in minutes)
5.11 (a) Effect of variety (VA) work value and interaction effect of attitude towards cheating and variety work value upon time spent on essential routine activities (in minutes)
5.11 (b) Effect of variety work value and interaction effect of attitude towards cheating and variety work value upon time spent on personality development activities (in minutes)
5.11 (c) Effect of variety work value and interaction effect of attitude towards cheating and variety work value upon
time spent on entertainment related activities (in minutes)

5.12 Effect of Different Work Values on Personality Development

Activities and Entertainment Activities

5.13 Work Values of Cases Spending More time on Personality Development Activities (P.D.A)

5.14 Work Values of Cases Spending least time on PDA
