ACKNOWLEDGEMENT

I am heartily indebted to my guide and supervisor Prof. S. Mohan, M.Sc., Ph.D., D.Sc., Dip in German whose discerning eye has scrutinized the whole of this thesis, and whose useful suggestions and valuable ideas were of immense help to me in this venture. I find no words to express my deep sense of gratitude to him for his excellent supervision, constant encouragement, and constructive criticism right from the choice of the research problem, till the submission of the thesis.

I am grateful to Dr. A. Gnanam, F.N.A., F.N.A.Sc, Vice-Chancellor, Pondicherry University for his kind permission to carry out research work at Raman School of Physics, Pondicherry University.

I acknowledge Prof. A. Srinivasa Rao, Head of the Department of Physics and members of Raman School of Physics for their encouragement.

I am thankful to CSIR, New Delhi, which supported the present research work through a Senior Research Fellowship (SRF).
My sincere and heartful thanks go to K. Settu, A. Sudha, R. Murugan and V. Ilangoavan, Research Scholars, whose timely help did much to enable me to complete this work.

Above all, I am deeply indebted to my parents for their constant encouragement and affection towards me which induced and helped me a lot in many ways in completing this research study successfully.

Lastly, I thank the Almighty God for all ventures and pray for a peaceful future.
