ACKNOWLEDGEMENT

I owe the greatest debt of gratitude to my guide Prof. R. C. Mohanty, CSIR-Emeritus Scientist, P. G Dept. of Botany, Utkal University, Vani vihar, Bhubaneswar for his valuable guidance, active interest and constant encouragement for this work.

I am falling short of words to convey my indebtedness to my co-guide Dr. N. K. Dhal, Principal Scientist, Environment & Sustainability Department, Institute of Minerals and Materials Technology, CSIR, Bhubaneswar for his encouragement, supervision, advise, guidance and support from the preliminary to the concluding level to complete my thesis.

I am grateful to Dr. K.B.Satapathy, H.O.D, P.G.Department of Botany, the faculty and all other members of the department for their kind co-operation extended to me during my tenure.

I am heartly thankful to Shri Chittaranjan Sahu and Dr. Deepak Kumar Sahoo for their help and encouragement.

I would like to thank my student Shri Hemanta Kumar Rana for his enormous co-operation during my field trips and preparing my doctoral thesis in the present form.

I am also very much thankful to my colleague Sri Bhagabat Bhuyan, Sri Sisir Ku. Pattnaik and Sri Bishnu Pr. Choudhury for their generous co-operation in preparing this thesis at different stages.

I am sincerely thankfull to the DFOs, other forest officials and most importantly the tribals of Nuapada district for their vital co-operation in the field survey.

It would not have been possible to write this doctoral thesis without the help, blessings and support of my parents. Above all, I would like to thank my wife Nishipadma and daughter Bidisha for their personal support and great patience at all times. My brother and sister have given me their unequivocal support throughout, as always, for which my mere expression of thanks likewise does not suffice.

Lastly, I offer my regards to all of those who supported me in any respect during the completion of the research work.

(Bhagirathi Kandi)
