List of Figures

Fig. 1: Historical and current distribution of Greater One Horned Rhinoceros in Indian subcontinent 10

Fig. 2.1: Chitwan National Park (CNP) including intensive study area and its Buffer Zone (DNPWC, 2011) 31

Fig. 2.2: Classified image of intensive study area of Sauraha Sector, Chitwan National Park. 32

Fig. 2.3: Mean monthly rainfall from 2009-2011 (Source: DHM/GoN). 33

Fig. 2.4: Mean monthly temperature from 2009-2011 (Source: DHM/GoN). 34

Fig. 2.5: Mean monthly relative humidity from 2009-2011 (Source: DHM/GoN). 34

Fig. 2.6: Hydrology and drainage map of CNP (Source: DNPWC and PPP). 36

Fig. 2.7: Classified habitat types of Chitwan National Park (WWF Nepal, 2006). 38

Fig. 2.8: Riverine forest community in Sauraha sector, Chitwan National Park. 39

Fig. 2.9: Savanna grassland with Bombyx trees in west Sauraha, CNP. 41

Fig. 2.10: Saccharum spontaneum grassland in Padampur Area, Sauraha sector, CNP. 44

Fig. 2.11: Imperata cylindrica grassland in Padampur area, Sauraha sector, CNP. 44

Fig. 2.12: Map showing Chitwan National Park and surrounding Buffer Zone of CNP (DNPWC/PCP, 2005). 49

Fig. 3.1: Key physical landmarks for identification of individual rhinoceros. 61

Fig. 3.2: Map showing rhino searched blocks and adjacent areas of Sauraha sector of Chitwan National Park. 65

Fig. 3.3: Area and density relationship of rhinoceros in 11 blocks of Sauraha sector of CNP. 68

Fig. 3.4: Distribution of Rhinoceros in the Sauraha sector of Chitwan National Park. 71

Fig. 3.5: Population trend of greater one horned Rhinoceros in Nepal. 74
Fig. 3.6: Showing population increase or decrease trend of rhinoceros, in overall (a) and five stages (b, c, d, e, f) with regression line, p for significance level.

Fig. 3.7: Depicts rhinoceros mortalities during various years in CNP due to natural deaths and poaching.

Fig. 3.8: Showing mortality of Rhinoceros sex-wise in Chitwan National Park.

Fig. 3.9: Showing mortality of Rhinoceros age-wise in Chitwan National Park.

Fig. 4.1: Individual rhinoceros activities data collection XL sheet.

Fig. 4.2: Seasonal and annual activities of rhinoceros (in percentage) in Sauraha sector of CNP. Bars represent standard errors.

Fig. 4.3: Showing different activities of Rhinoceros (in percentage) separately. Bars represent standard errors.

Fig. 4.4: Diurnal activity patterns of rhinoceros in hot season (based on twelve hours activity).

Fig. 4.5: Diurnal activity patterns of rhinoceros in monsoon season (based on twelve hours activity).

Fig. 4.6: Diurnal activity patterns of rhinoceros in winter season (based on twelve hours activity).

Fig. 4.7: Percentage of bites records in different habitats in different seasons.

Fig. 4.8: Chart showing records of plant families more than one percent feeding records.

Fig. 4.9: Number of feeding records of Rhinoceros month-wise.

Fig. 5.1: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of M1.

Fig. 5.2: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of M2.

Fig. 5.3: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of M3.

Fig. 5.4: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of M4.

Fig. 5.5: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of M5.

Fig. 5.6: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of F1.

Fig. 5.7: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of F2.
Fig. 5.8: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of F3.

Fig. 5.9: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of F4.

Fig. 5.10: Annual & seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of F5.

Fig. 5.11: Locations of all ten rhinoceros in the intensive study area of Sauraha sector.

Fig. 5.12: Annual Minimum Convex Polygons (MCP) of ten rhinoceros in the intensive study area of Sauraha sector.

Fig. 5.13: Fixed Kernel Densities, FKD (95% & 50%) of ten rhinoceros in the intensive study area of Sauraha sector.

Fig. 5.14: Spatial overlaps in MCPs of three male Rhinoceros in the study area.

Fig. 5.15: Showing overlapping areas of four female Rhinoceros in the study area of Sauraha sector.

Fig. 5.16: Average Fixed Kernel Density Isopleths area of ten rhinoceros showing point of inflection (arrow) in different percentage (95%-40%) contour level.

Fig. 5.17: Ivlev Electivity Index for annual and seasonal habitat preference and avoidance in different habitat types.

Fig. 5.18: Annual and seasonal hourly displacement of male rhinoceros in Sauraha sector, CNP. Error bars are standard errors.

Fig. 5.19: Annual and seasonal hourly displacement of female rhinoceros in Sauraha sector, CNP. Error bars are standard errors.
List of Tables

Table 3.1: Number of Rhinoceros, block size, population density in Sauraha sector of CNP. 69
Table 3.2: Distribution of rhinoceros by habitat type in Sauraha sector of CNP. 70
Table 3.3: Age and sex-wise status of rhinoceros in Sauraha sector of Chitwan National Park. 72
Table 3.4: Population status of rhinoceros in different census years in and around Chitwan National Park. 76
Table 3.5: Analysis of demographic parameters of rhinoceros in Chitwan National Park and present study. 77
Table 3.6: Showing rhinoceros mortalities in Chitwan National Park due to natural deaths and poaching from fiscal years 1998/99 – 2011/12. 79
Table 3.7: Showing mortalities of rhinoceros in various age and sex classes and detection of rhinoceros with or without horns in Chitwan National Park from fiscal years 1998/99 – 2011/12. 80
Table 4.1: Percentage time of rhinoceros activities in different seasons in Sauraha sector, CNP. Values after ± are standard errors. 92
Table 4.2: Bites records of rhinoceros in different habitats for different seasons (n = 10; observation hours = 518). 98
Table 4.3: Feeding frequency of Rhinoceros on various plant species in three season (species included only n > 1% frequency level). 101
Table 4.4: Records of plant families more than one percent in feeding records of rhinoceros. 102
Table 4.5: Month-wise feeding records of rhinoceros in the study period 2009-2011. 103
Table 5.1: Annual and seasonal Minimum Convex Polygon, MCP and Fixed Kernel Density, FKD (95% & 50%) of five males and five females Rhinoceros. 124
Table 5.2: Spatial overlaps (km²) in MCPs of ten rhinoceros in the study area of Sauraha sector. 132
Table 5.3: Fixed Kernel Density, FKD (km²) in different percentage contour volumes (95% - 40%) of ten rhinoceros. 134
Table 5.4: Area (km²) and percentage of habitat types in the study area of Sauraha sector in CNP. 136
